

The background features a light cyan color with a subtle grid pattern. Several large, stylized purple shapes with rounded edges and thin black outlines are scattered across the frame. Faint white medical symbols, including crosses and squares, are visible in the background.

**MEDICAL-PREVENTIV
E
FACULTY**

PSM

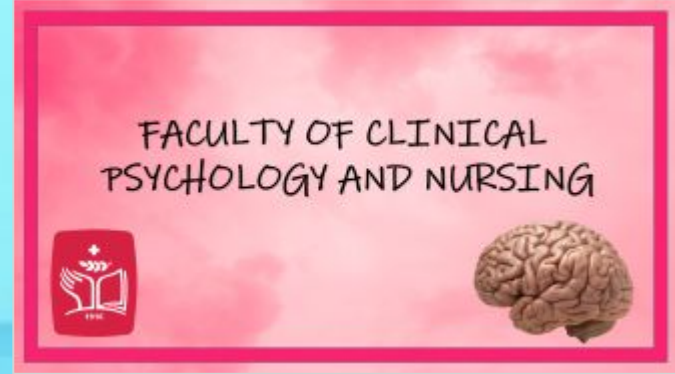

- The Perm State Medical University was founded in **1916** and later in **1931** became an independent higher educational institution.

FACULTIES

There are 5
faculties in our
university

MEDICAL-PREVENTIVE FACULTY

- The medical-preventive faculty is the first faculty on the Urals and one of the oldest in Russia.
- It was founded in **1931**

THE

DEAN

- Dykhno Mikhail Albertovich

Профессор М.А. Дыхно

- Kirichenko Larisa Viktorovna

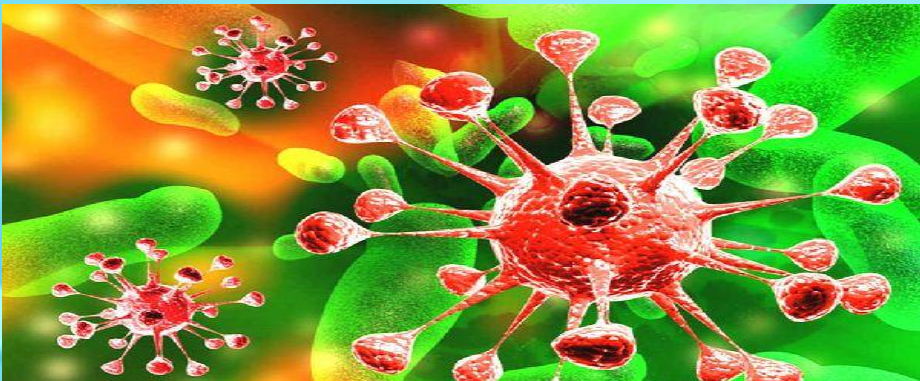

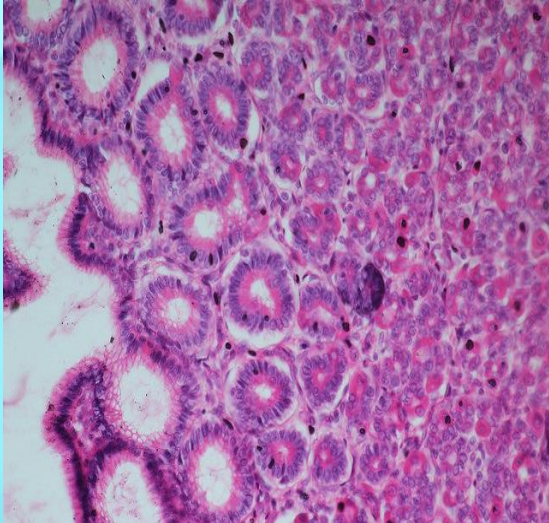

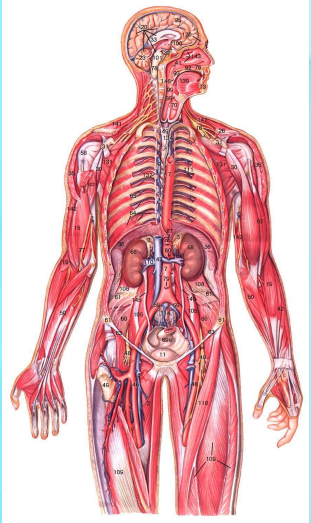

THE

STAFF

- 22 doctors and 53 candidates of Medical Sciences work at the departments of the faculty

STUD

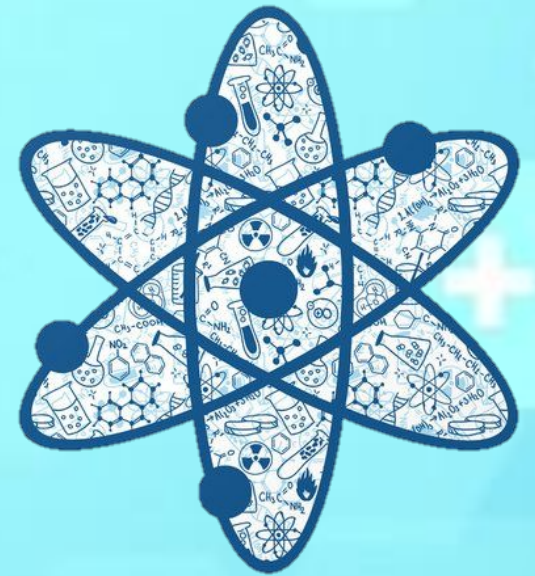

- The course of studies lasts 6 years.
- In the first 2 years the students study mainly preclinical subjects
- Senior students study the problems of prevention of infectious and non-infectious diseases

CHEMISTR

Y

- At this faculty special attention is paid to the study of chemistry.

THE END OF STUDY

- Students become Physicians of General Hygiene or Epidemiologists

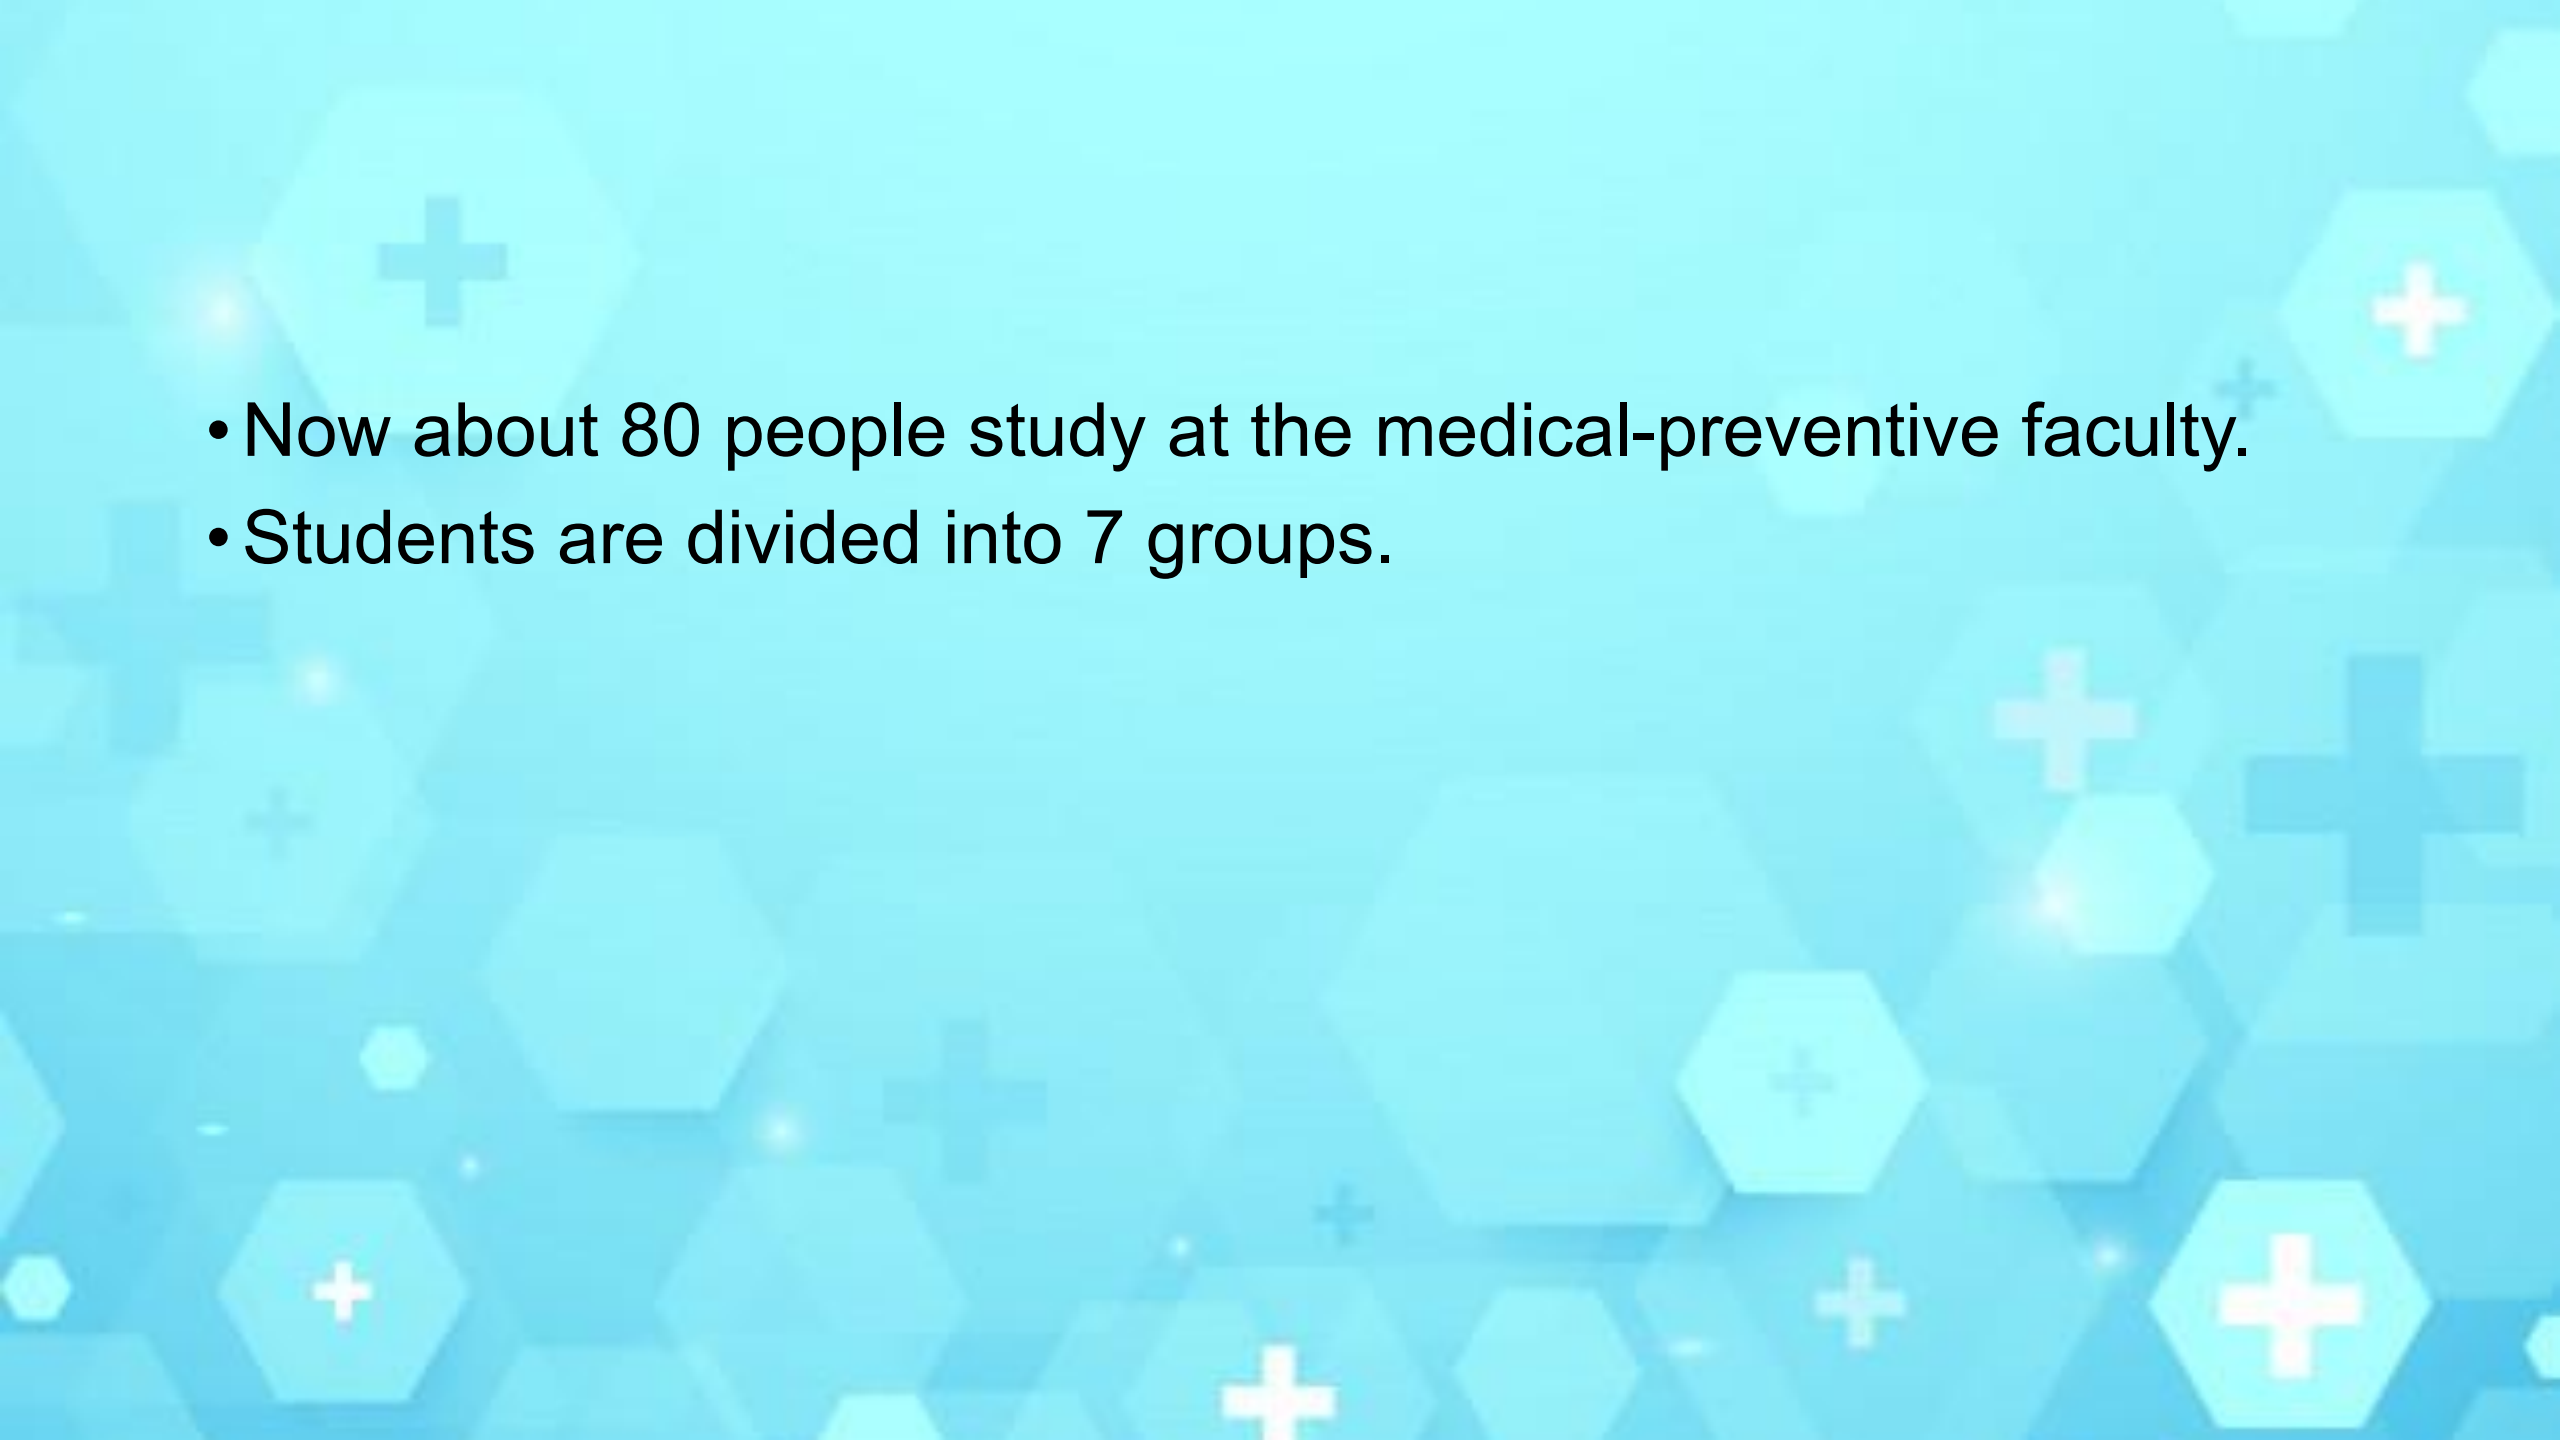

GRADUAT

E

- The graduates can work in clinics, hospitals, sanitary and epidemiological stations all over the country

- 
- The background of the slide is a light blue color with a pattern of semi-transparent hexagons. Some of these hexagons contain a white plus sign (+).
- Now about 80 people study at the medical-preventive faculty.
 - Students are divided into 7 groups.
