Why have I received this e-mail?

Automatization is trend following everywhere in the world.

But not long ago we have established **«Solo»** and realized that African payment market is

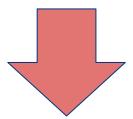

such a greater opportunity for our business than any other part of the world.

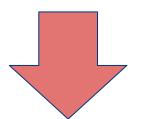

We suppose that <u>NAME OF COMPANY</u> understands the profitability of payment system development within <u>COUNTRY</u> as good as has enough knowledge and resources to run new business with DeltaPay. From our point of view we could not only achieve "win-win" with, but obtain the best results together.
