# Gentle Cleansing Wash

## Lactic acid

- Is a **natural** component of the skin.
- Ensures the **regulation of the skin's acidity**, which inhibits microbial growth.
- **Neutralizes irritant (alkaline) compounds**, which relieves pruritus.

Specially Formulated for Daily Feminine Hygiene

# Gentle Cleansing Wash

**Lactoserum**

Is a product derived from the hydromineral portion of **milk**.

Is rich in **vitamins** and **minerals**.

Prolongs the effect of lactic acid.

Has **moisturizing properties**.

Specially Formulated for Daily Feminine Hygiene

# Daily Natural Protection

- ① Exclusive formulation of natural components (Lactic acid and lactoserum), which maintains vulvovaginal balance.
- ① Daily natural protection<sup>1</sup> against the symptoms of vulvovaginal infections, such as bad odors and irritations.
- ① Freshness and well-being.<sup>2</sup>
- ① Hypoallergenic.<sup>3</sup>
- ① Tested under gynaecological control.<sup>4</sup>
- ① Pleasant smell.

Your patient needs daily protection for her intimate hygiene.

# Usage

-  In conjunction with standard treatment for vulvovaginal infections.
-  Prevention of new or recurring vulvovaginal infections.
-  Daily feminine hygiene.

## Summary of Product Characteristic

**Lactacyd®** has been specially formulated to protect the fragile natural balance of vulvovaginal flora. Contrary to usual soaps, **Lactacyd®** contains natural and mild active ingredients extracted from milk, giving it an acidic pH which preserves this balance, thereby protecting you from discomfort and malodors. For longstanding freshness and well-being, especially during menstruation, use **Lactacyd®** every day.

**Directions of use:** Use as a liquid soap. Rinse thoroughly with water. Shake well before use. For external use only. To always feel fresh, use regularly especially during the menstrual period. In case of vaginal infection, use daily to supplement the treatment prescribed.

**Composition:** Lactoserum, lactic acid, magnesium laureth sulfate, disodium laureth sulfosuccinate, cocoamidopropyl betain, glyceryl laurate, glycol distearate, sodium laureth sulfate, cocoamide MEA, laureth-10, PEG-7-glyceryl cocoate, propylene glycol, PEG-55 propylene glycol oleate, fragrance, phenoxyethyl alcohol, aqua.
