# READING

Tick the places in Sophie's town.

I live in a small town near London. There are some clothes shops and shoe shops. There is a restaurant but there isn't an airport. There are two banks, a fire station and a market. There isn't a factory so my dad goes to work by train every day. We live near the school. My favourite place is the park where I play football with my friends. We sometimes go to London by bus. I like my town very much.
