

Dentist

MY PROFESSION

Dentist

- ⦿ Dentist-a specialist doctor whose competence mainly includes the diagnosis, treatment and prevention of diseases and any damage to the teeth, gums and other oral organs

Advantages of the profession

- ⦿ Guaranteed employment;
- ⦿ High income level;
- ⦿ Ability to choose a place of work and salary;
- ⦿ Real results of the invested labor.

Negative features of the profession

- ⦿ A large list of requirements for a specialist;
- ⦿ The need for continuous professional development;
- ⦿ Working with different groups of people;
- ⦿ Significant physical activity.

Qualities required by a dental specialist

- Anyone who has dealt with representatives of this profession, notes that dentists are balanced and pedantic people who scrupulously and painstakingly perform their work.
- Dental treatment can be compared to the work of a jeweler — so precise and nuanced should be the actions of a doctor. Let's list the main qualities that a dentist needs in his work:
- Accuracy;
- Ability to focus;
- Endurance;
- Good memory;
- Developed fine motor skills of hands;
- Patience;
- Emotional restraint;
- Non-conflict

Why did I choose this profession?

- The profession of a dentist is not only interesting, but also very important. Be useful and bring a lot of joy to other people's lives. It's a great job for me.

Thanks for your
attention.
