

**Сюжетная композиция.
Образ праздника.
День Космонавтики.**

Тема рисунка на этой неделе связана с прошедшим Днем Космонавтики.

На этой неделе Вы можете использовать любые материалы. Краски, цветные карандаши, может быть – графика.

Давайте попробуем нарисовать необычный космос. Может быть это будут какие-либо планеты, которые Вы придумаете, другая галактика, разные виды ракет, спутников.

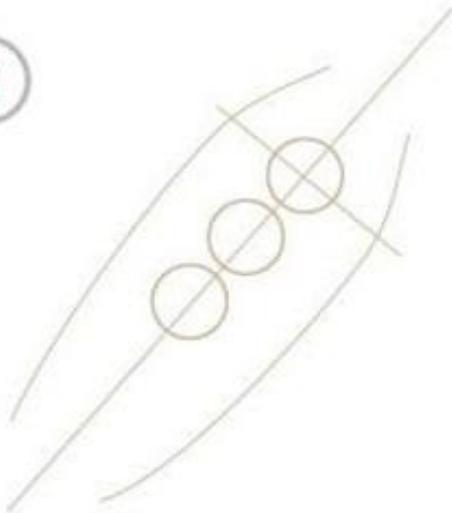

Ниже показаны поэтапности рисования ракет, планет и т.д. А так же идеи для вдохновения.

НО! Вы придумываете полностью свою композицию.

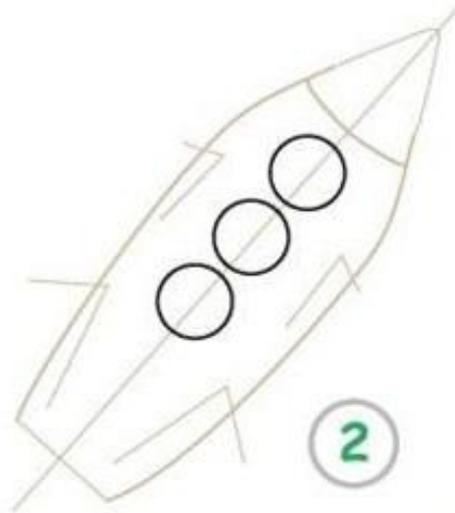

- Работы можете присылать до пятницы (17.04.2020) до 17:00. В любой социальной сети, (ВК - <https://vk.com/anastasiapalagina7> , Инстаграм - anastasiapalagina , эл. Почта – a.palagina@inbox.ru) или в сообщения в ШП.

Удачи 😊
