

**«Politics in your
pocket» Inc**

About us

Why do we do this?

We think that the policy is too serious, our company is very depressing, that is why this is our response to this whole political science.

How we do it

We are the most famous manufacturer of mobile applications in the category of "pocket policy". We have a huge range of products. We know our business, we have a lot of experience in this field.

Hello!

I am Vladimir Putin!

You can control me, speak with my phrases! Try and you will forget about everything!

1

Team work

**Let's talk about
ourselves in detail**

“

"In solitude we can do so little:
together we can turn
mountains"

Helen Keller

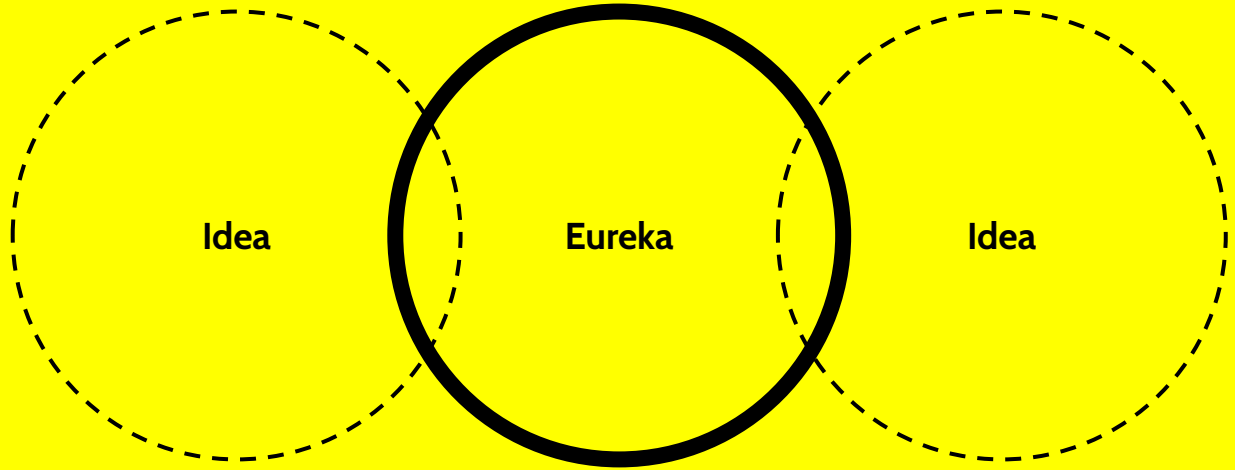

Company Departments

- software developers
- interface designers
- sound designers
- marketers
- advertisers
- lawyers

We approach the development of our applications in a comprehensive manner. the division of labor lies at the heart of successful work.

How we are working

2

**Relationship between
superiors and
subordinates**

Communication between employees and the boss?

Straight.

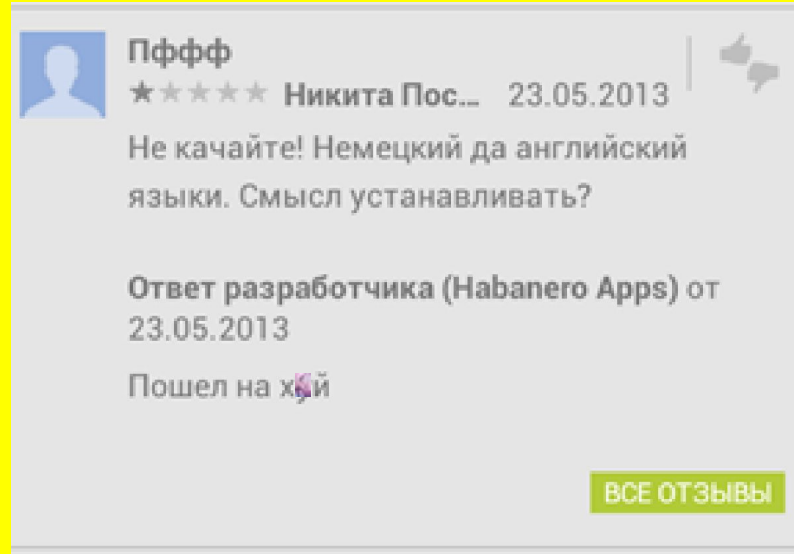

3

**customer
service**

Customer service

All our applications are located in the service of Google Play, which allows us to track the opinions of our customers and timely respond to their messages

We love our customers

4

**history of
the
company**

our history

The company was founded by refugees from Chechnya in 1943 in the United States. The first developments were models for missile strikes on the USSR. After the war and the popularization of consoles began to develop software for them. After developed into a large company and continued to operate in the market of portable PCs and phones

5

**relation
with
partners**

**Communicati
on with
partners**

We are monopolists in this sphere, we do not have partners. Our only partners are advertisers who integrate advertising into our applications.

6

Holidays

A photograph of two white doves in flight against a clear, bright blue sky. The dove in the foreground is larger and shown in profile, with its wings fully extended. The second dove is smaller and positioned further away in the upper right quadrant of the frame. The overall mood is peaceful and symbolic.

In our company celebrating the holidays:

Hanukkah

Pesach

Birthday of famous politicians

New Year

Christmas

Day of Creation Google Play

7

**social
package**

social package

Gym for physical support, full medical insurance, canteen, premium for finding in our apps new bugs and code-mistakes, addition to pension according to man's length of service, annual corporative parties, 3 weeks of vacation

Every week employees having 1 pack of doritos and pepsi, employees are having a coffee break, where they are discussing new ideas with their co-workers and administration, every 6 month we have a competition for promotion, employees have paid sick leave

8

Locations

Maps

our company is everywhere

Let's review some concepts

Now we will tell you about our main office. Let's start with the lower floors on them - several cafeterias, as well as the lobby. Next is the floor under the server, where all the data is stored. On the third floor there is a medical office for employees, office space and a building for protection.

On the fourth floor there is a gym. Then there is a floor for tourists. Since this is an IT company, there are many ways to relax, and on this floor there is a library.

The next floor is reserved for the offices of workers. The last floor of the building is reserved for the head office of the head of the company and the conference room.

The general office building has 7 floors, which are equipped with everything that can help to work comfortably, relax and give a sense of security.

9

**System of
awards**

Awards

For our employees we have lots of rewards, from simple cash bonuses to something unusual like merch or exclusive stuff. We're looking for many ways to show our guys that we appreciate their job.

We provide the best conditions that we can afford to create a perfect working atmosphere in our group. As usual, everyone who is working on project are getting it for free with release. Beta-testers are also getting some exclusive early-access experience as a bonus.
