## I forgot my password. How can I retrieve it?

If you've ever signed in to your Opera account on your computer, you can view your account password in Opera's password manager. In your computer's Opera browser:

1. Select **Settings** from the main menu (select **Preferences...** from the **Opera** menu, if you are on Mac).
2. Select **Privacy & security** from the sidebar.
3. Under **Passwords**, click the **Manage saved passwords...** button.
4. Search for "auth.opera.com" in the password manager's search bar to find your Opera account details.

# Opera Mini Tech Support Center

You can also reset your password. [Navigate to the Opera accounts homepage](#) and click the **Forgot password?** link. We recommend that you verify your email address after registering for an account, just to be sure that we have your correct email address on record.

If you've forgotten your synchronization master passphrase, you will need to reset your sync data. [Read more about resetting your account.](#)
