

Part Analysis

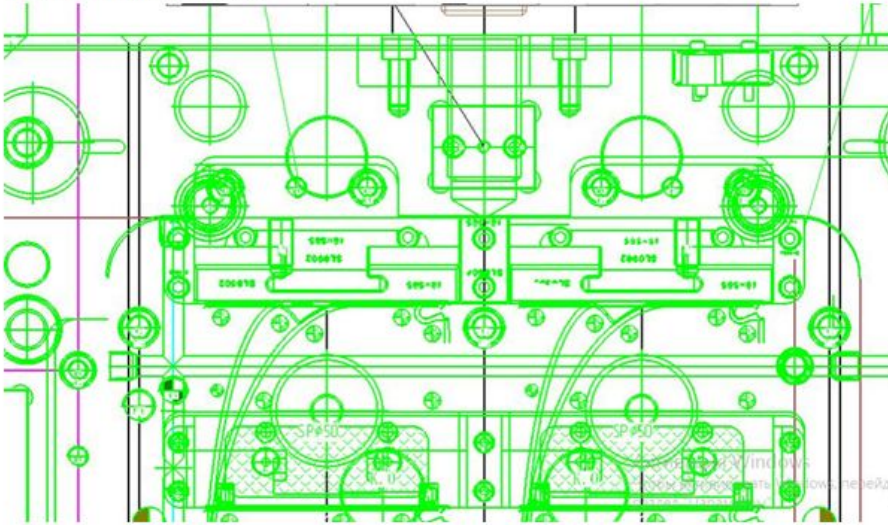

1) Please make 2 sliders? Not one: 请做 2 个行位，而不是一个

Now:现在

Please use this idea: 请用这个

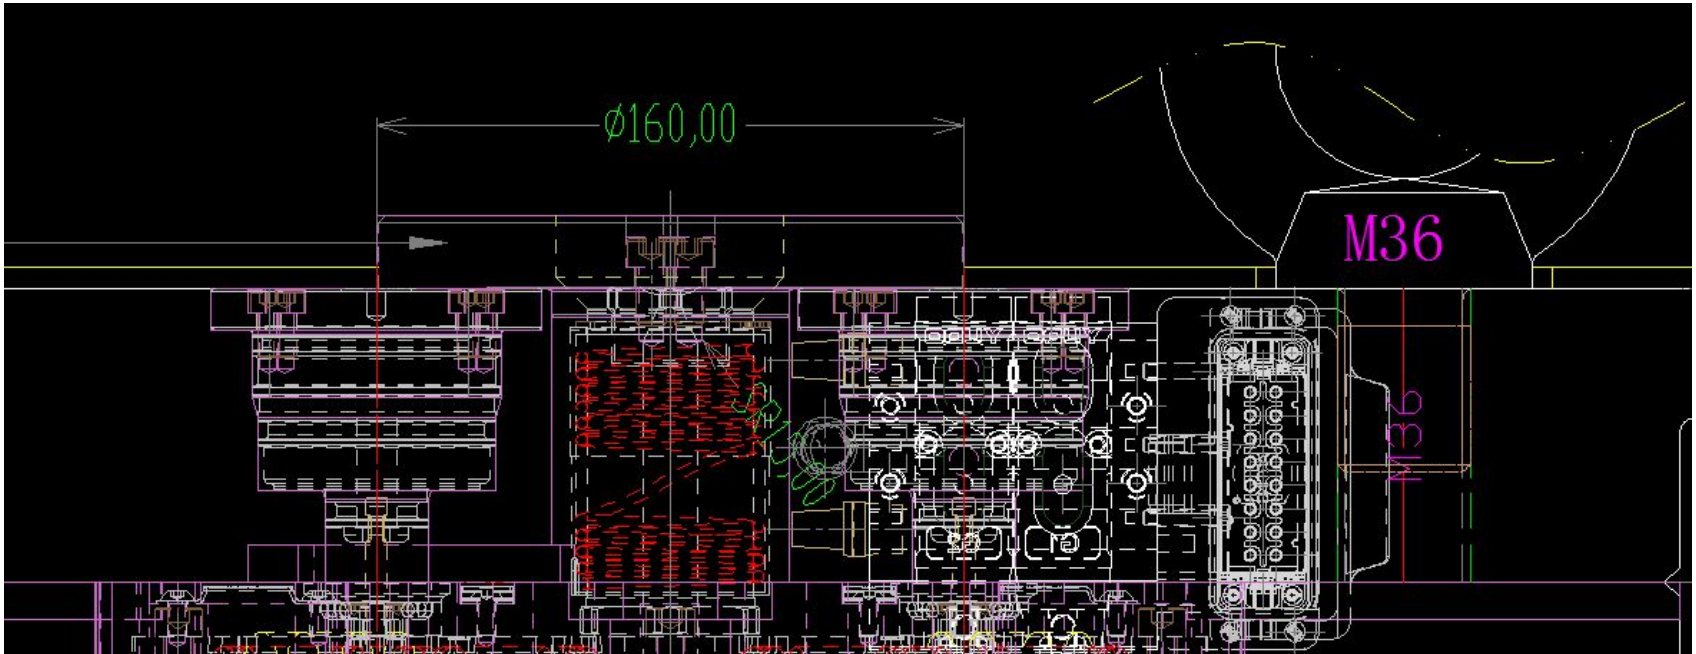

WL2020.3.6

we can have cooling with only one slider, there was not cooling with two slider, we suggest to keep our design.

the same problem as DIV 120 285-485(WL200-80).

原来做两件的行位是没有运水的, 现在我们把做成一件是为了上运水

2) Please make flange diameter 160mm. 定位环直径 160mm

WL2020.3.6

it is 160mm in our drawing, we didn't mark the dimension.
the same problem as DIV 120 285-485(WL200-80).

发过去的图纸定位环是160mm的。
是我们没有表数。

WL200-80的图纸一样的问题
