

Hello, world!

I want to tell you about *The University of Mines in Saint-Petersburg*

1. At this university are studying everything related to mining activities and geological exploration.

3. Faculties at this university as institutions, though linked
4. This University has all that you wish! (even a gym in a dormitory!)
into him annually invest several billion rubles...
5. You can get bachelor and specialist.

University's history.

St. Petersburg Mining University - the first in Russia and the second in the world the highest mountain-technical school, founded by the Decree of the Empress Catherine II on October 21 (November 1) 1773. June 28 (July 9), 1774 the grand opening of the St. Petersburg Mining School. The original plan of the Mountain School students were trained 3-3.5 years. Until 1792 Mountain College was contained in the ore industrialist funds. In 1792, the Senate moved the school to state-owned content.

The number of students: over 10k.

University participates in all mineral projects of the country.

51 place in the ranking of the top 100 universities in the world. Main technical education in Russia. That says it all.

Famous alumni. of my contemporaries: Oleg Tinkoff. And also a lot of wonderful people bygone Russian Empire
