

# Private Jet Charters

Go anywhere in the world on your own terms. That is your prerogative and our obligation. From matching the schedule and cabin preference to catering for your language requirements, dietary choices and onward transportation needs. Whatever your journey's purpose, we will ensure you get there the way you want, the way you deserve.

# Aircraft Sales and Marketing

Boost your revenues and improve profitability of your business jet aircraft by outsourcing to us the day-to-day marketing and sales via wide network of clients. Recover the costs of ownership with ad-hoc charter programs or generate steady cash flows with longer term leases. Optimize your capital through efficient aircraft disposal, or grow your return on investment by making the right acquisition. Our team will help you identify the right opportunities, engage with key stakeholders and successfully conclude the transaction.

# About The Company

Jet8 International is a product of over 25 years of joint experience of its founding partners in diverse areas of commercial aviation industry ranging from flight operations, dispatch and handling support to charter programme development, aircraft sales brokering, finance leases and strategic planning. We have worked with all kinds of aircraft – from light single engine props to wide body airliners and heavy freighters.

Our track record in business aviation sector includes both extensive operational and sales experience across all five segments of main aircraft types by size and mission profile. We can provide suitable pairing across any geographies, although our average loads are currently tilted more towards intra-European sectors.
