

THREE MYSTERIOUS PLACES ON EARTH

EASTER ISLAND

Huge stone statues were found relatively long ago, but scientists do not understand who created them and when.

There are about a thousand of these monuments

THE DEVIL'S SEA

This is a small area that is located in the Pacific Ocean.

According to many locals, unexplained things happen there, various anomalies, some strange lights, and most importantly, people disappear there.

STONE FOREST, MADAGASCAR

Tens of kilometers of stone forest with sharp spires reaching into the sky.

The area of this object is 125 thousand hectares. Huge karst rocks have blue and gray colors, and very sharp edges.
