

MY FAVOURITE BOOK

Student:

Borodencko Irina

My favourite book is
«Fahrenheit 451».

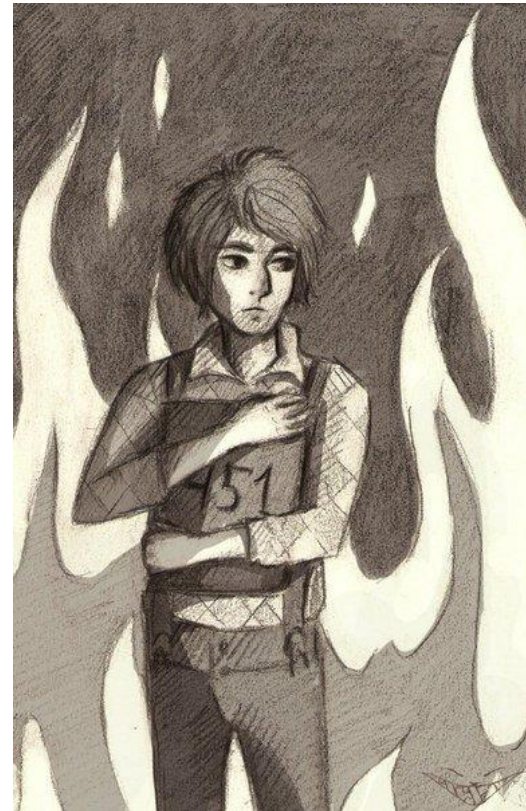

The author of the book
is Ray Bradbury.

It is a science fiction
novel dystopia.

It is about the future society, the principle of which is the primitive consumer thinking.

The action takes place in near future in America.

THE MAIN CHARACTER IS GUY MONTAG,
WHO IS DISILLUSIONED WITH THE IDEALS
OF THE SOCIETY IN WHICH HE IS. HE LIVES
IN NEAR FUTURE IN AMERICA.

Thirty year old Guy Montag, a fireman however, in these times the fire departments do not fight with fire. Their task is to search for books and burn them, as well as the homes of those who dared to keep at home. Meeting with Clarissa McClelland the knocks hero out of the rut.

I like this book, the author describes actions in details and it helps me, manage to infiltrate the most in those events, experience the atmosphere for yourself.

At the moment, I do not see similarities of the story and our modern life, but the trend is towards the events, is available. So I recommend you to read this books, because it forces the reader to think about how important to read books.
