A BRIEF HISTORY OF THAI ROCK

1970S

The Thai rock genre began by Laem Morrison who performed for American soldiers during the Vietnam war.

1980S

Rock bands of this decade include The Olarn Project, Neua Gub Nang, and Rockestra. The most successful were Asanee-Wasan and Micro, both signed with GMM Grammy.

1990S

Heavy metal emerged, with bands such as Stone Metal Fire, Kaleidoscope, Donpheebin, Big Gun and Hi-Rock. A popular Thai rock singer at that time was Itti Palangkul and Chatchai Sukkhawadee (Rang Rockestra)

1990s

In the 1990s, alternative and indie music in Thailand was established, following the breakthrough of the American band Nirvana, whose success widely popularized alternative rock in the early-1990s. Several alt-rock bands sprung up, such as Moderndog, Silly Fools, Y Not 7, Sepia, Labanoon and Crub.

2000S

In the 2000s, Clash released their first album, "ONE". Their first single, "Gaud (Hug)" was a big hit, and led the band to success.
