## Advantages of 2d games

- In spite of its “age” 2D has many advantages. Cartoonish style of the oldest 2D form of animation is beloved by fans as it does not imitate real life.
- Producing 2D animation is cheaper than 3D animation and it is quicker to produce.
- As 2D involves less technology and software it is simple and less complex and can be used without any tutorials.
- Moreover, this design form allows players to break into an ideal, but non-realistic, world. Also, 2D game designers focus on the details of the games and you create an original look and feel to your game.

## Disadvantages of 2d games

- However, 2D has some disadvantages such as unrealistic 2D design, less demand of 2D comparing with an eye-catching 3D which attracts more people, templates of 2D animation that can never be reused, limited details of the surrounding environment, some users think traditional animation of 2D is boring and the fact that there are few types of 2D games.
