

RRESENTATION ABOUT YOURSELF.

My name is Ksenia, I am 18 years old.

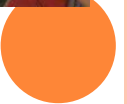

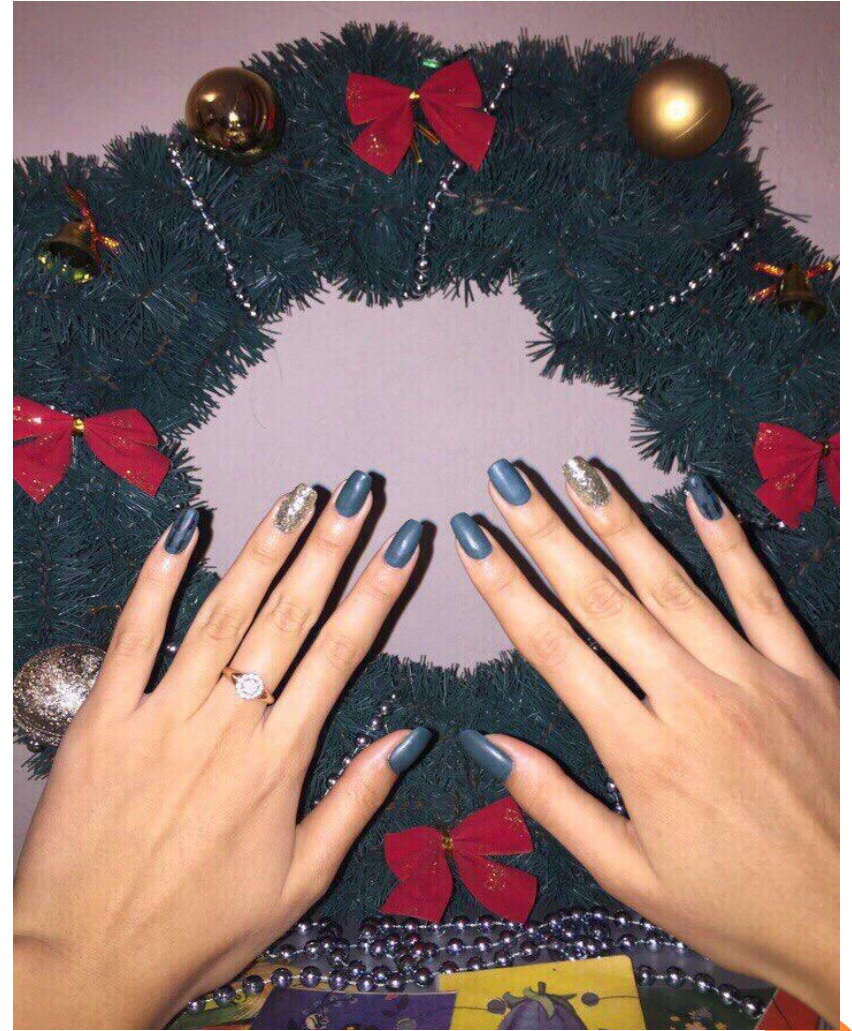

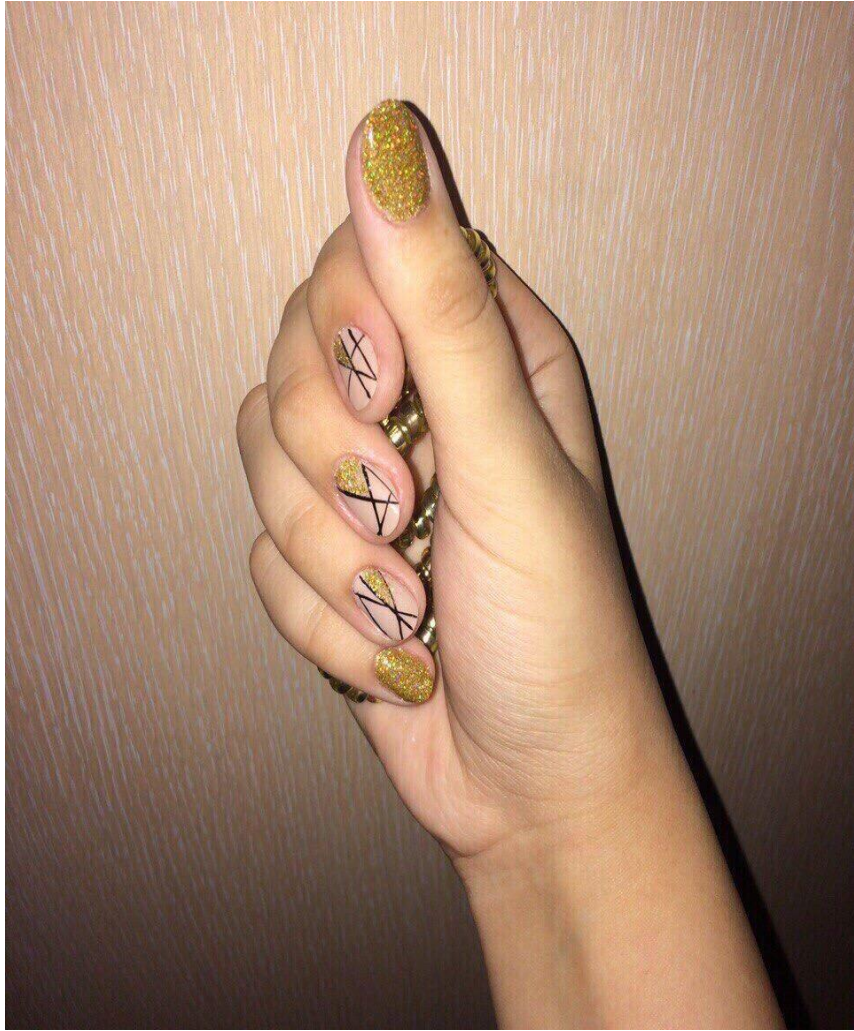

My interests are painting, style, makeup and everything related to art. From childhood I love to draw and went to art school for many years.

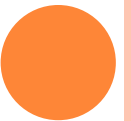

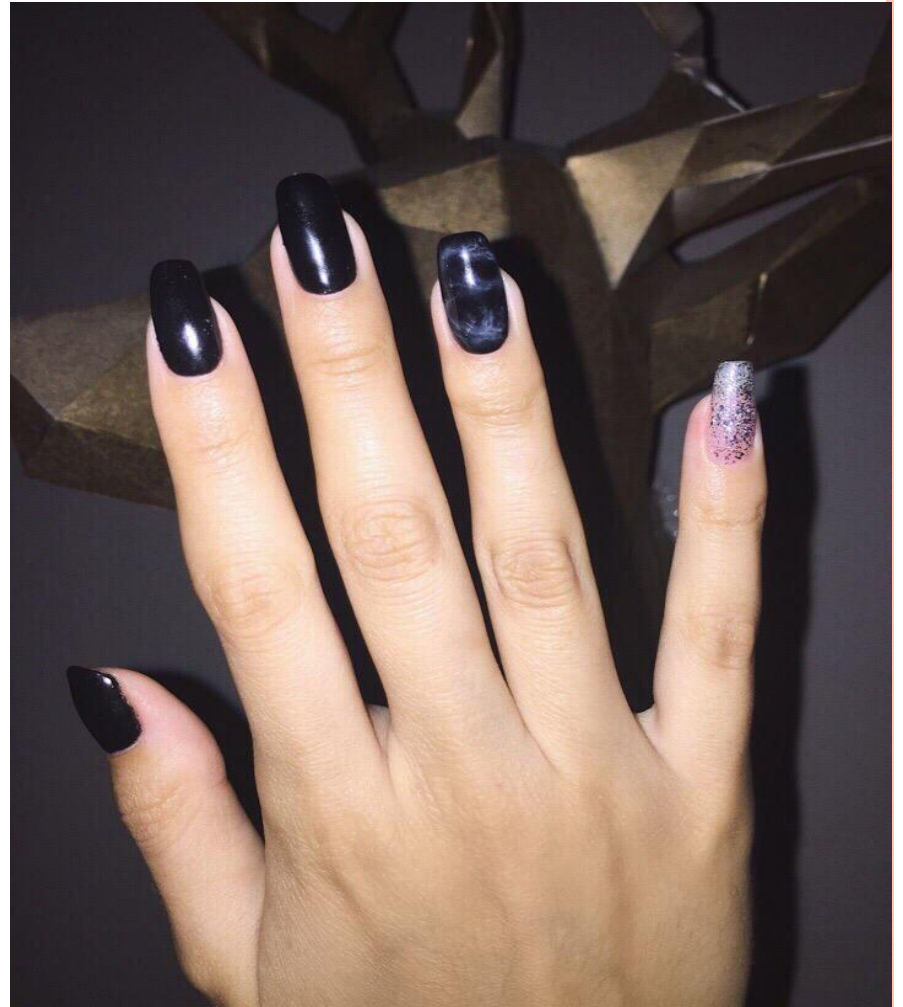

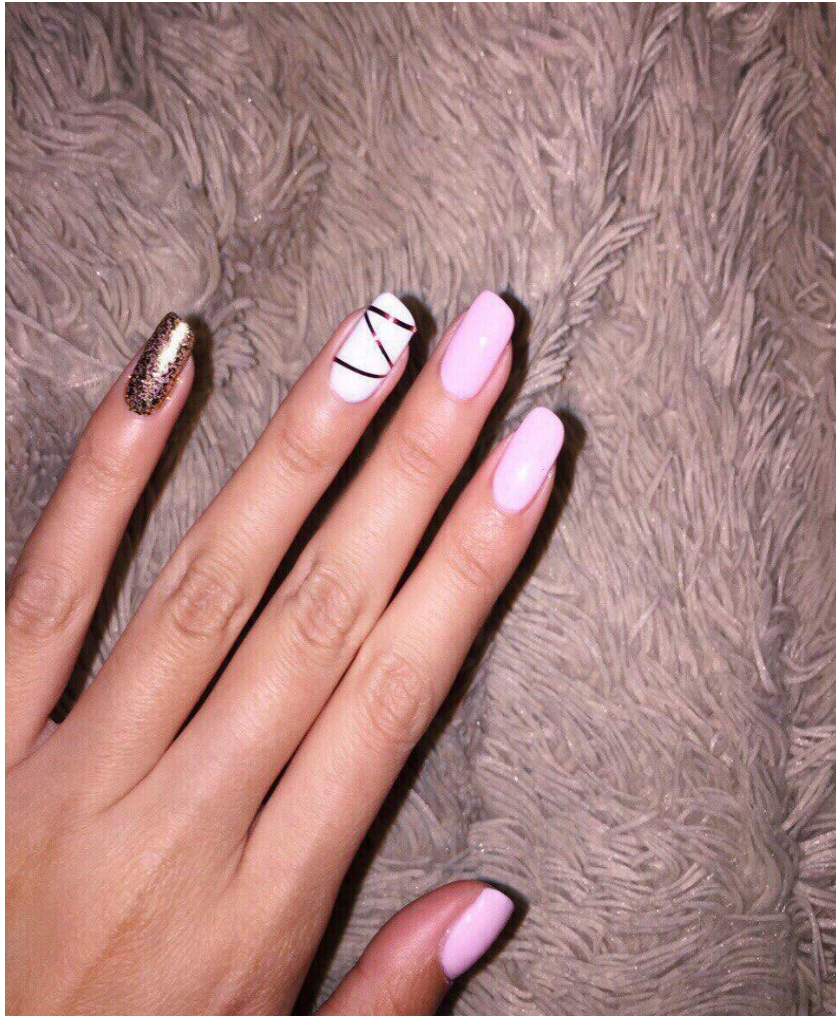

I study at the republican multilevel college. My studies here are drawing to a close, these 4 years passed very quickly

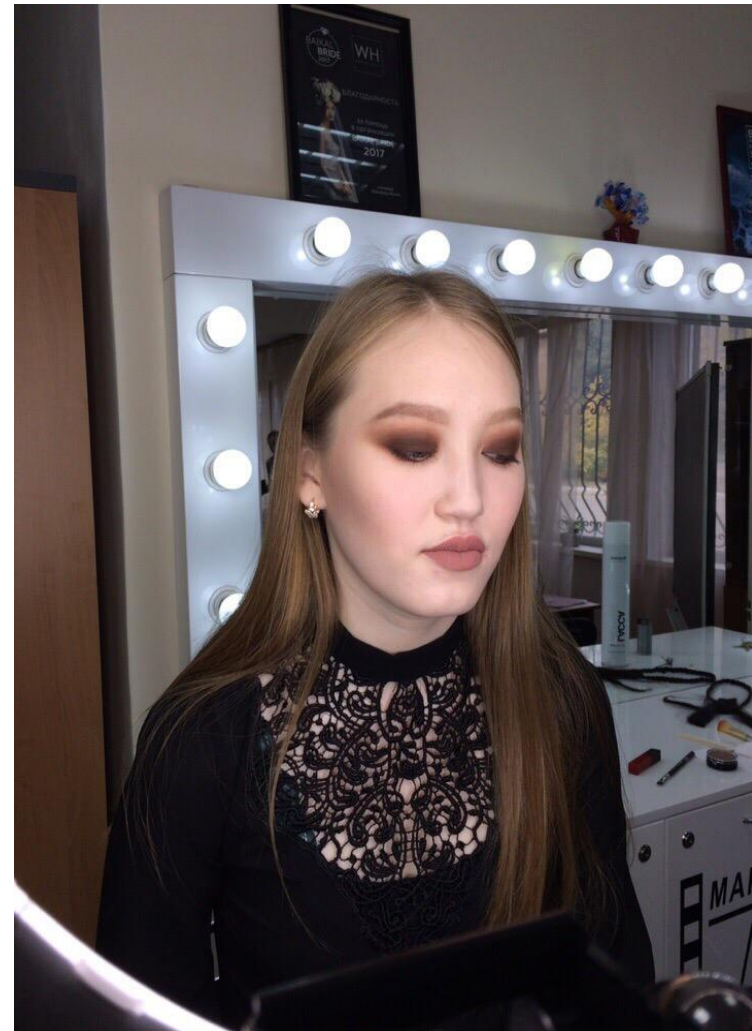

During my studies I learned a lot of new and interesting things, starting from the first year with manicure, to this day I do manicure for myself and sometimes work in a beauty salon. Here are some of my works.

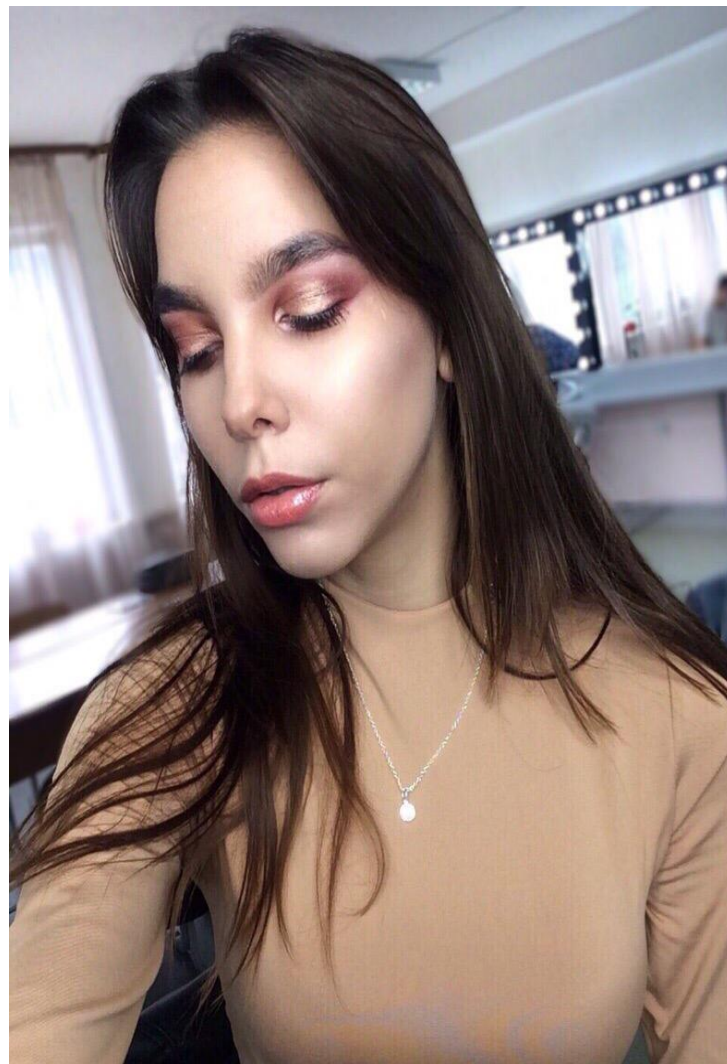

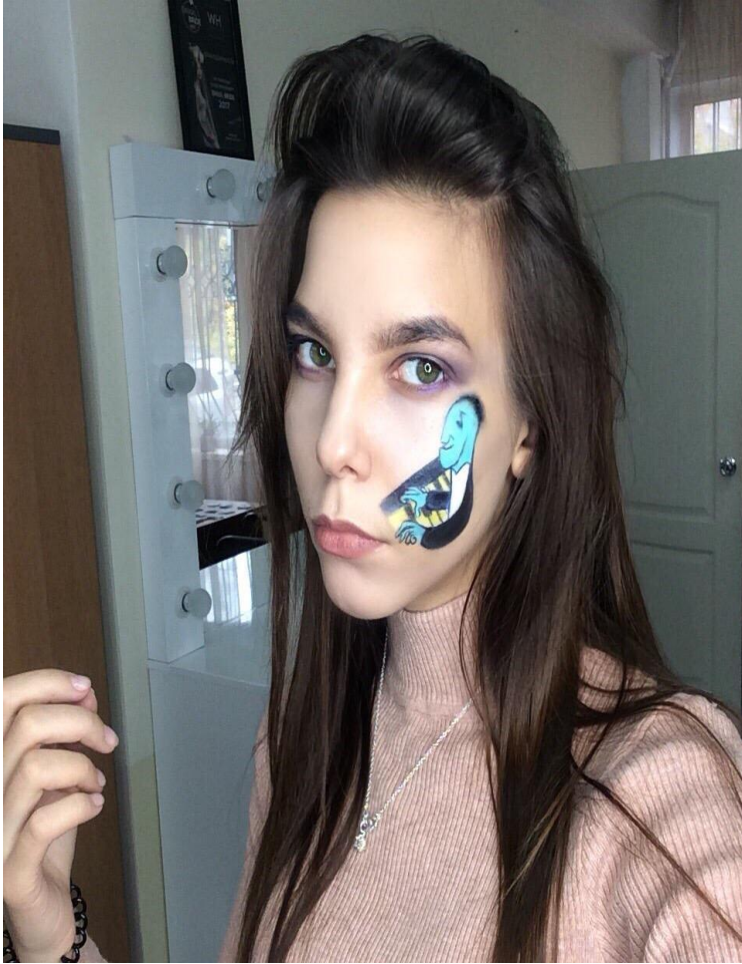

From the very first year I have been waiting for when we will do makeup and all that. When it started I was very happy about it. my work will be here.

I also like face art and body art lessons

#facechart

During my studies there were many good and memorable moments and thanks to college I learned a lot of useful things for myself! Thanks for your attention!
