

HOW TO BECOME A SOCIALLY SUCCESSFUL PERSON.

Miroslavskaya A.M./Byvsheva.Y.

What should become your habit :

- Always rise when you fall, don't be disappointed in people.
- Risk. A person never regrets what he did, but regrets that he was afraid to take a chance and missed the chance.
- Don't be afraid to make mistakes. Mistakes are also an experience. Success does not come by itself. Success comes at the cost of failure.

As Edison was fond of saying at the next failure, "I now know 99 ways how not to invent a light bulb. It remains to find 1 way to do it."

Things to avoid :

- ❑ Don't give up after a small or even major setback. Only weak people do that, and strong people learn from their mistakes.
- ❑ Forget about fear not please people, act. «The sleeping Fox catches no chickens».
- ❑ Don't expect a "push" from anyone else. Everything is only in your hands.

Thank you for your attention, socially successful person.
