Read the texts. Read the definitions.

I'm sure life in 2100 will **be very different**. The earth will **be so polluted** that we won't **be able** to live on it anymore. It will be difficult to find clean water and lots of animals and plants won't **exist** anymore. I think we will live in glass domes in underwater cities and will travel in special **mini-submarines**.

Mark (13)

I think that we will be able to take holidays on the moon in 2100. A **moon shuttle** will travel from the Earth to the moon in only a few hours. There will be moon hotels where people can stay, and moon zoos where we will see strange creatures. People will wear special suits that keep them on the ground. But I'm not sure everyone will **have enough money** to go on a holiday to the moon.

Jennifer (13)

*I **believe** we will have flying cars and we will be able to fly around cities. If we have flying cars, there won't be any **traffic jams**. I also think that there won't be any petrol left, so we will use another **fuel** that won't **cause pollution**. It will be better for the planet.*

Which prediction do you think will come true?

How can we talk about predictions? Read the sentences, then the rule.

I'm sure life in 2100 will **be very different**.

I think we will live in glass domes in underwater cities and will travel in special **mini-submarines**.

if you don't want to go to school, you won't have to because there will be online schools.

But I'm not sure everyone will **have enough money** to go on a holiday to the moon.

I believe we will have flying cars and we will be able to fly around cities.

If we have flying cars, there won't be any traffic jams.

- We use **will** to make predictions about the future based on what we think or imagine. We often begin our sentence with the words: *I think, I'm sure, I believe.*
I think life will be very different in 2100.
- We use the Present Simple after **if** and **when**, not the Future Simple.
if/when + Present Simple
If/When I go to Spain, I will take lots of photographs.
NOT: ~~*If/When I will go to Spain, ...*~~

Ask and answer the questions.

1. people / go on holiday / to the moon?

- Will people go on holiday to the moon?
- I (don't) think they will. They will

2. people / drive / flying cars?

- Will people drive flying cars?
- Yes, I think people will drive flying cars.

3. computers / talk?

- Will computers talk?
- Yes, I think computers will talk.

4. time travel / be / common?

- Will time travel be common?
- No, time travel won't be common.

5. people / live / in underwater cities?

- Will people live in underwater cities?
- No, I don't think people will live in the underwater cities.

Put the verbs in brackets into the future simple or the present simple.

1. If people .. **invent** new fuel, cars .. **won't pollute** the air.

2. When John .. **comes** we .. **will go** to the park.

3. If he .. **has** a lot of money, he .. **will buy** a computer.

4. If you **exercise** more, you ... **will feel** better.

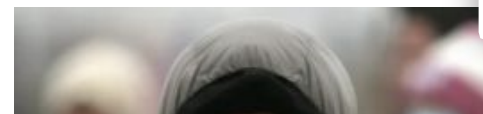

5. If we .. **are** lucky, we .. **will go** on a holiday to the moon one day.

Ex. 6. Fill in the sentences with will or won't. Listen to John making predictions.

- 1 I'm sure robots **will** .. do most of the housework.
- 2 There **won't** . be many plants and animals left on the planet.
- 3 I think the earth **will** , be very polluted in 2100.
- 4 If we continue to pollute the earth
.. **won't** be any clean water left

script

John: I think the world will be a very different place in 2100. I'm sure that robots will do most of the housework for us so we can spend more time playing and having fun. But, I think there won't be many plants and animals left on the planet so we'll have to find new types of food. I also think the earth will be very polluted and maybe we'll have to wear masks. What I'm really afraid of is that if we continue to cause pollution, there won't be any clean water left and we'll have to go to other planets to find water.

- 4 I'll get the dictionary and **look up** the words I don't know.

Ex. 8. Writing. Portfolio.

What are your predictions for the future?

Use ideas from Ex. 1 as well as your own to write a short text similar to the ones on p.46.

You can draw pictures.

***Suggested Answer Key***

I think that we will discover other planets and we will go on holidays there. I also think that everybody will have their own robot that will do all their work for them and we will have more time to play. However, I don't believe that we will have robot teachers because we will always need real teachers.

Why don't you look **up** the word in the dictionary?

Cars to come

Everybody wants a fast, unusual car. Car manufacturers all **1 over** the world are trying to create 'the car of the future'. Some people believe that in the future, cars will wake **2 up** before you, and send you an email to let you know if they have any mechanical problems. People will get into their cars, tell them **where** to go, sit back, and enjoy the ride. Cars will have radar and won't **4 need** drivers to steer them. Every car will have a beeper and you will be able to contact it and tell it where and when to pick you up.

As we all know, cars cause very serious pollution **problems**. In the future, environmentally friendly cars will become very popular. Scientists will invent cars that run on water and solar power, or make cars of recycled materials. People will also **6 been** able to choose and buy cars off the Internet.
