

flydubai Cargo Presentation

Introduction

One of fastest growing carrier in the world

- ✓ flydubai Cargo is the freight division of flydubai airline which offers comprehensive cargo solutions to more than 93 destinations, 1700 flights a week in over 44 countries.
- ✓ flydubai Cargo uses belly-hold capacity in flydubai's brand new 59 Boeings 737-800NG passenger aircrafts and the new deliveries of 100 more Boeing 737-MAX will commence from September 2017 onwards.
- ✓ In addition to serving all points on the flydubai passenger network, it transports goods to worldwide destinations through our interline partners which we offer 300+ Destinations.
- ✓ The flydubai Cargo fleet, is among the youngest in the skies, contributing significantly to the reliability, fuel efficiency and speed of flydubai Cargo services.

Introduction

- ✓ flydubai commenced passenger services in June 2009.
- ✓ flydubai Cargo commenced services on January 2012 and established itself as a major global player recognized by international awards.
- ✓ flydubai has the expertise and equipment to provide a number of specialised services for the transport and customised solution for perishable goods, temperature-controlled items, urgent goods and valuable deliveries.
- ✓ A major factor in its success is the end-to-end IT cargo management system, which gives customers a range of business logistics technology solutions, including up-to-the-second status reports on consignments, from booking through to final delivery.

Introduction

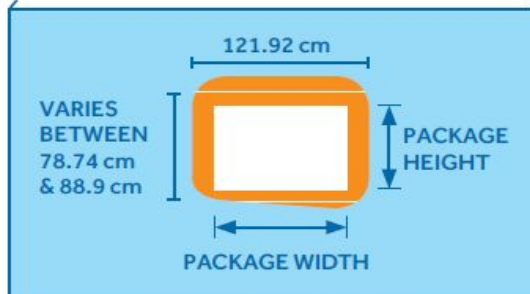

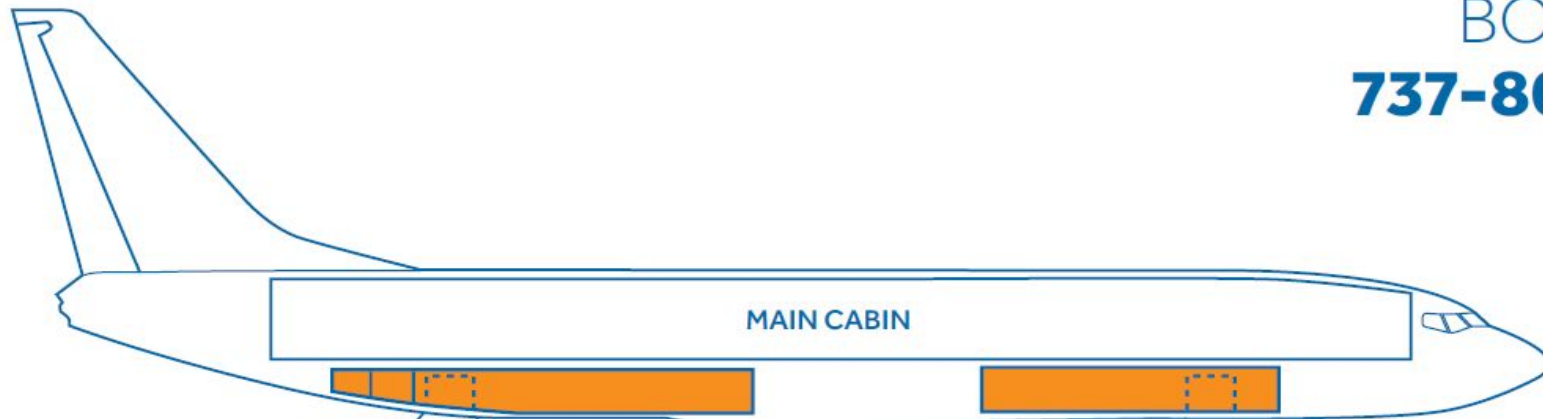

- ✓ flydubai is the only airline having 100% electronic AWBs in place which is being recognized by IATA.
- ✓ flydubai having 82 percent on time performance and having Quick Ramp Transfer “QRT” connection of one hour transit time.
- ✓ flydubai arranges transit of Cargo from flydubai to other airlines within 8 hours where all other airlines need 16hrs to 24 hrs.
- ✓ flydubai Cargo has established itself as a major global player recognized by international awards.
- ✓ flydubai has its own dedicated staff who takes care in liaising with customs and police for inspections in Dubai to arrange hassle-free movement of goods during the transit to the final destination.
