

Project

Playground «Peter Pan»

presentation is prepared by: Bugubaeva Dinara
and
Li Viktoria

We want to introduce you to our project – «Playground.»
Me and my friend did one project, but every chose their own design.

Architectural design that can be built in the park or near the houses. I called his project "Peter Pan", because the main idea of the design was the story of the cartoon. Children's playground projected for children from 3-9 years old and their parents.

It is divided into areas for the very young and older children. Materials for the construction of the playing area: wood, plastic, rubber.

This drawing of my project on paper. Here it shows the general views and plans.

The game space is simulates of the natural hills.

Peter Pan character lived in a place like this.

The main element of the game - the ship of Captain Hook. Here the child begins his journey from the bay with the ship, gets into playing zone.

Landscape important part in the design of the playground. Playground fits in nature.

This is plan.
All play elements are
here.

Statues stand at the entrance to the park
Peter Pan and Tinker
Bell

ГЕНОААН М1:400

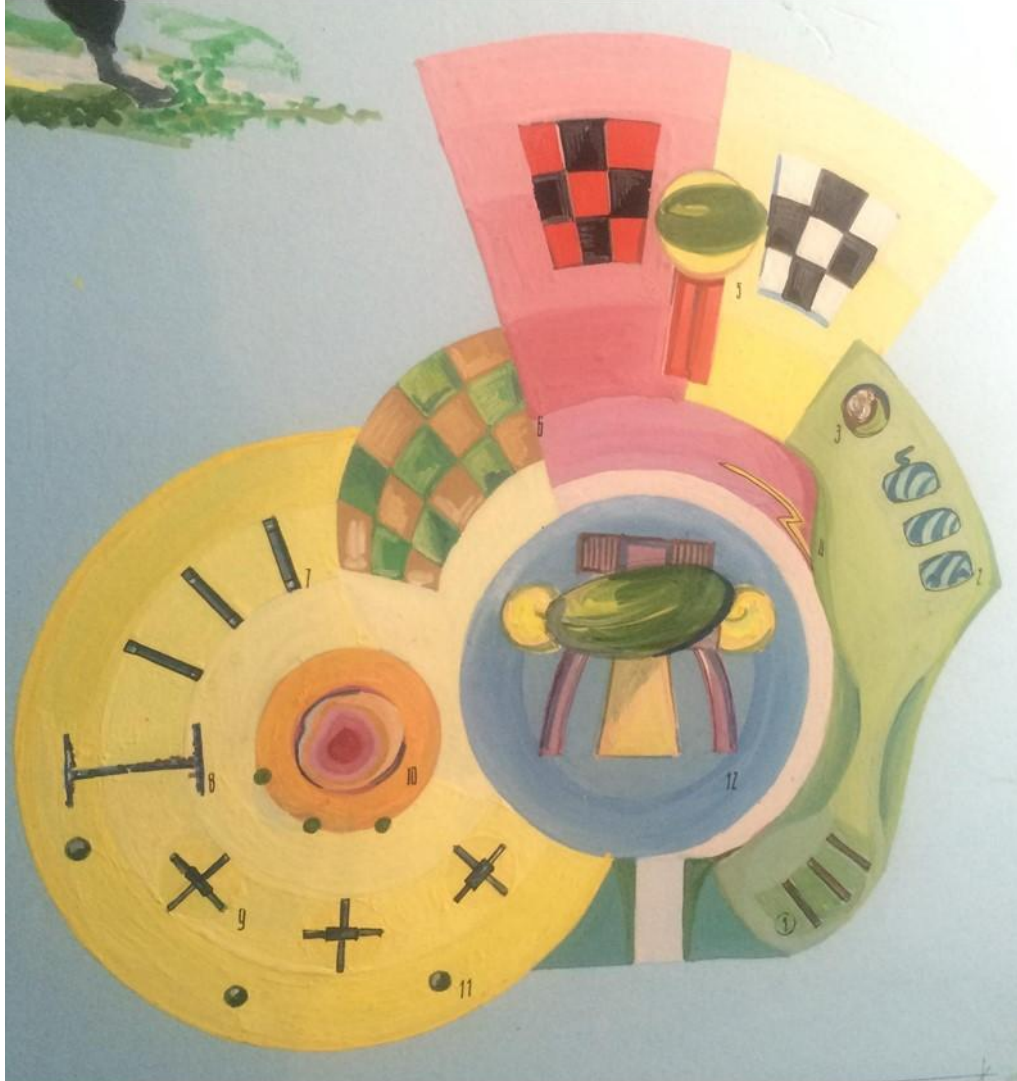

I worked on the project for two months.
I learned the dimensions of game
elements and structures. I charted a
project on the scale of 1: 100. All
elements are drawn with precision.

And now I'll show you my design of the same project. It is called «Alice in Wonderland»

This is plan.

Zone 1: for little kids. Visiting Kind Queen

Zone 2: for kids 5-7 years old. Visiting Hatter

Zone 3: for adult kids. Visiting Red Queen

I tried to repeat the elements of the film in the game elements. Characters and colors.

Here the child will find it all: talking animals, flying hats and magic trees.

I charted a project on the scale of 1: 100.
All elements are drawn with precision.

I tried very accurately paint the main characters. Facial expressions, gestures, clothing.

Doing a project for children was very interesting. I remembered my childhood. I wanted to realize there my Childhood dreams.

Child waiting for an exciting adventure through the magic world. It's never boring. Playground should be a safe and a favorite place for children and their parents. I think that me and Dinara, were able to prove it.

THANK YOU FOR YOUR ATTENTION!!!
