My friends.

I think that every person on Earth has at least one friend, because we can't live without close people. A friend is a person with whom you can share your secrets, whom you can totally trust, and who will support you in the hour of need. Of course, I also have friends. I am quite a sociable person, and usually I make friends easily. But there are only three people in my life, whom I can consider my best friends. And I'd like to tell about them.

My best friend's name is Aybolek. We have been friends since earliest infancy, maybe since kindergarten, I don't remember exactly. We live next door to each other, and our Moms are good friends too. We attended one and the same group in kindergarten. Indeed, Diana is very talkative and giggly; she likes to tell funny stories and she always knows how to keep up my spirits. But she is very reliable, and she will never gossip or give away my secrets. I am sure that I can entrust anything to her.

Apart from Aybolek, I have got two more best friends – Madina and Enya. They have nice slender figures, long and thick dark hair and big grey eyes. Besides, they both are very clever and well-educated, so it's very interesting for me to talk to them. But don't think that my friends are bookworms – quite the opposite, they are pretty cheerful and merry. When we get together, we always have a lot of fun.

I can safely say that Madina is my best friend. He has an amazing sense of humor and he can easily make me laugh even when I have a bad day. She is as good as his word. Madina is also good at keeping secrets. I like that she is a reliable person and he always supports me. We try to help each other. Of course we sometimes can argue or quarrel, but not for too long. We try to forgive each

Thank You

Thanks for always listening to me, supporting me, and encouraging me. You're a true friend, and I want you to know how much I love and appreciate you. You're the best!

My hobby.

Hobbies differ like tastes. If you have chosen a hobby according to your character and taste, you are lucky because your life becomes more interesting.

My hobby is reading. It has been a great pleasure for me since my childhood. The world of literature is fascinating and infinite. It certainly doesn't mean that I love all the books. To tell the truth, finding a good book is not so easy. I prefer historical novels, classical and informative literature and some professional books concerning business and management as I am going to run a business of my own in future.

Music is my life. Being free I listen to different kinds of music such as classical, modern, folk, dance and pop music.

I love music, I think people can not live without it. The first thing I do in the morning I switch on my tape – recorder. I enjoy listening music because it reflects my moods and emotions. Very often when I'm blue, I play my favourite merry songs and feel much better.
