

Happy New year in St. Petersburg

Артем Хуснулгатин, 7 «Б»

New year is a special holiday. I dream to celebrate the New year in St. Petersburg. This is the most beautiful city in Russia, which becomes even more bright and colorful on the main holiday of the year.

The main Christmas tree of the city is installed on the Palace square. The celebration around the tree will be noisy until four o'clock in the morning. With the last stroke of the chimes, a giant fireworks display will begin.

On the Haymarket square is filled with an open-air skating rink. Christmas tree, illumination and brilliant colored lights ice is waiting for cheerful visitors. Famous Russian and foreign artists will sing their favorite songs.

- ▶ Big fireworks in St. Petersburg can be seen from any point, because it is launched simultaneously in 35 different places of the city.

- ▶ Christmas trees are installed in all squares of St. Petersburg. At night there are festive performances and festivities. And in the afternoon unfold trade Christmas fairs. In the city you can see other bright events. It would be interesting to see the running of Santa Claus and Snowgirls.

If my dream ever comes true, I will remember it for life!
