

CULTURE

- On the one hand, culture can be understood very broadly, describing all the main areas of human life.

Social culture is the cult of the people as a whole. These are signs that have developed among the people over the years. This could include events, architecture

Culture in a particular direction is a culture of behavior based on a particular situation. For example, the manners of communication man. The way he knows how to communicate with other people.

Customs and traditions of various nations

In Korea, to show that the feast turned out good, and that everything is very tasty, you need to chomp as loud as you can.

In Latin America, every meeting and acquaintance made a hug

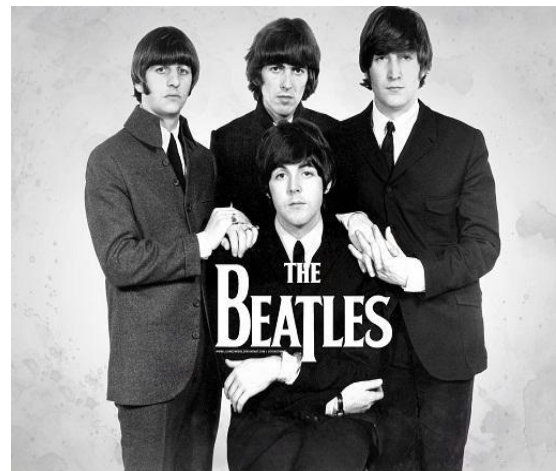

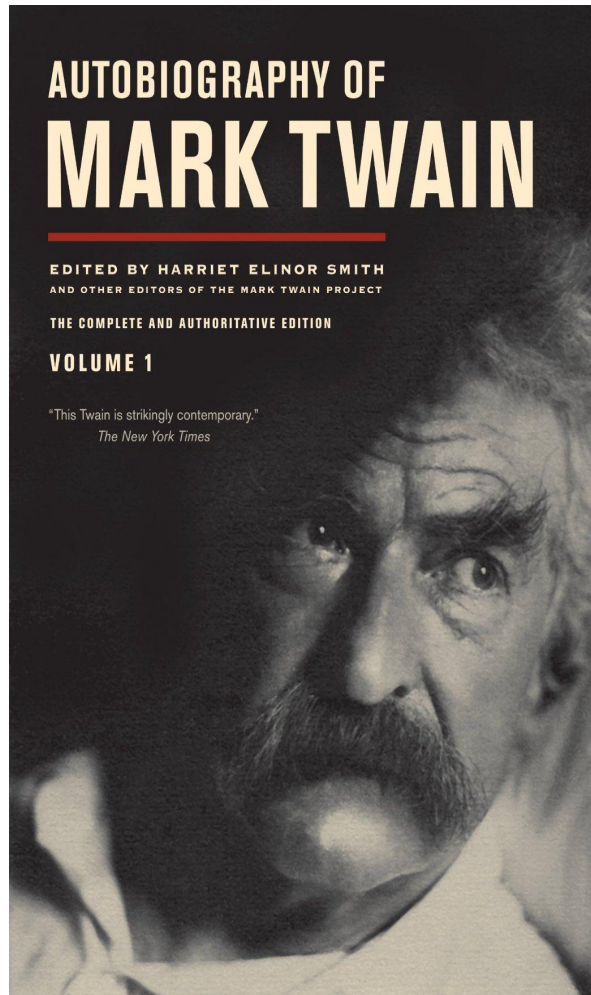

If you are 25 years old, and you are still alone, then you are sprinkled with cinnamon.
