Ностальгия..

Как мы работали в фонозале?

- Поставить аудио запись и открыть текст скрипта к ней
- Прослушать аудио запись, одновременно читая текст
- Сделать пометки –разметить ритмические группы, проставить интонационные стрелки, подчеркнуть трудно произносимые слова или слова, произносимые не по правилам ('tricky words'), протранскрибировать их
- Поставить запись на начало, в режиме listen-stop-repeat прочитать за диктором весь текст, останавливаясь на границах ритмических групп и коротких предложений
- Прослушать текст с самого начала, отслеживая по скрипту
- Прочитать текст вслух
- Прослушать запись снова

10 The Soldier's Life: Uniforms & Tactical Gear

Today's military uniforms are lightweight and comfortable. Most countries' field uniforms are **camouflaged**. This makes the soldiers **blend** into the scenery. **Trousers**, a T-shirt, boots and **headgear** make up the basic field uniform. For colder weather, soldiers wear a **field jacket**.

A soldier carries what he needs into battle in **load-bearing equipment**, including a **rucksack** and **webbing**. The **webbing** may contain a **bayonet**, two or more **ammo pouches**, a first aid kit, canteen holders for water canteens and even a pistol **holster**. The soldier typically wears a **Kevlar helmet** into battle.

Алгоритм формирования навыков аудирования на занятии

- Get a warm up on the topic
- Pre-teach vocabulary and Grammar
- Get some gist questions for the Ss to answer
- Play the recording
- Get the Ss answer the questions
- Check the answers

- Set some tasks for listening for specific information
- Play the recording again
- Check the answers
- Use the topic of the listening as an extension or transfer to another part of the lesson

PACKAGING AND TRANSPORT

Goods have to be packed before transportation. There are several types of containers. Each is good for different contents. For example, a barrel is normally used for transporting beer, but large goods are better in a crate.

The containers can be shipped by air, sea, road or rail. There are advantages and disadvantages to each.

1 These are some of the most commonly-used containers. Write the names in the tables.

2 Complete the text with words from exercise 1.

- 1 Large amounts of dangerous liquid can be transported in a metal _____.
- 2 A _____ is very good for transporting grain.
- 3 A plastic _____ is useful for carrying water.
- 4 Wine and beer is normally kept in a wooden _____.
- 5 Textiles can be made into a _____ to transport.
- 6 A wooden _____ is often used for moving large goods.
- 7 Fluids can be transported in a glass _____.
- 8 A cardboard _____ is good for moving small objects.

FOCUS on THE PASSIVE

The passive is formed with the corresponding tense of the verb **be** + the past participle of the verb.

Present simple passive: present simple of be + past participle.

The goods are shipped in boxes.

Present continuous passive: present continuous of be + past participle

The crates are being packed right now.

Past simple passive: past simple of be + past participle

The transport company was founded in 1807.

3 Choose the correct words to complete the sentences.

- The goods *are being shipped* / *are shipping* to London.
- The water *is transported* / *transports* in 300 bottles.
- All the crates *are packed* / *were packed* last week.
- Beer *is stored* / *was store* in a large barrel.
- The boxes *are transport* / *were transported* to Italy.
- 100 sacks *are being loaded* / *were loaded* onto the train yesterday.
- Most of our goods *are sent* / *send* by cargo ship.
- A metal drum *was used* / *is using* to transport the liquid.

FOCUS on FORMS OF TRANSPORT

The means of transport used depends on the type, value and dimension of the goods, the distance that has to be covered and the cost of freight. Each has its own advantages (pros) and disadvantages (cons).

4 Read about the pros and cons of different means of transport then write *sea, air, rail or road*.

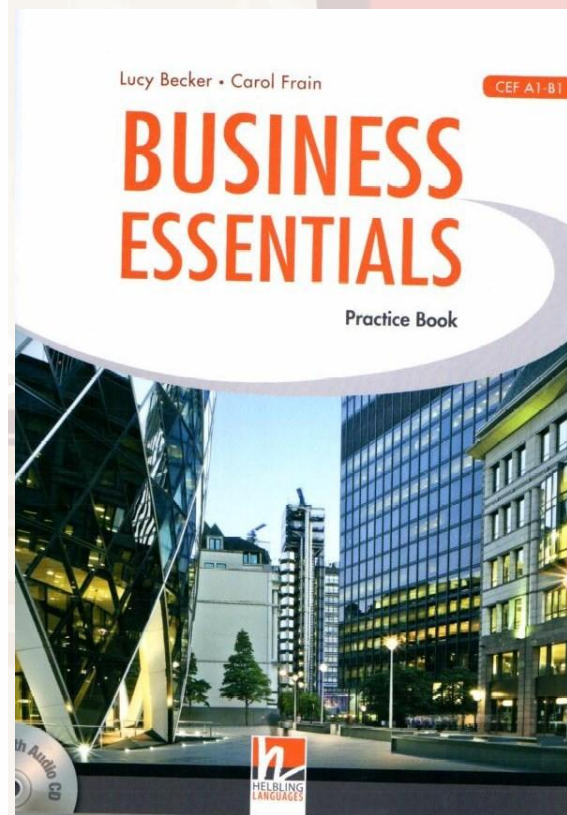

| | PROS | CONS |
|---------------|---|--|
| 1 by _____ | fairly fast allows door-to-door service | petrol is becoming very expensive causes high pollution levels increases traffic congestion |
| 2 by _____ | relatively cheap fairly fast environmentally friendly | requires other means of transport to and from the railway station more loading and unloading may damage the goods |
| 3 by _____ | relatively cheap suitable for bulky and dangerous goods | very slow requires other means of transport to and from the port more loading and unloading may damage the goods |
| 4 by _____ | very fast | very expensive causes high pollution levels requires other means of transport to and from the airport |

5 TRACK 14 Listen to the dialogues and answer the questions.

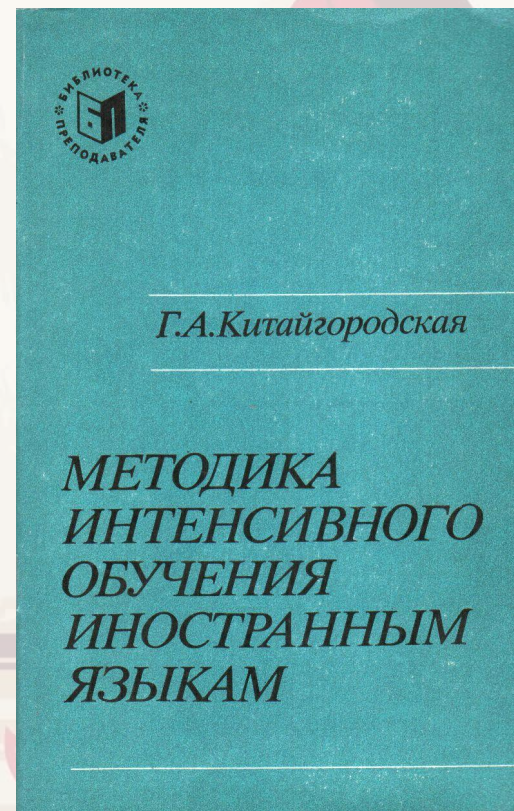

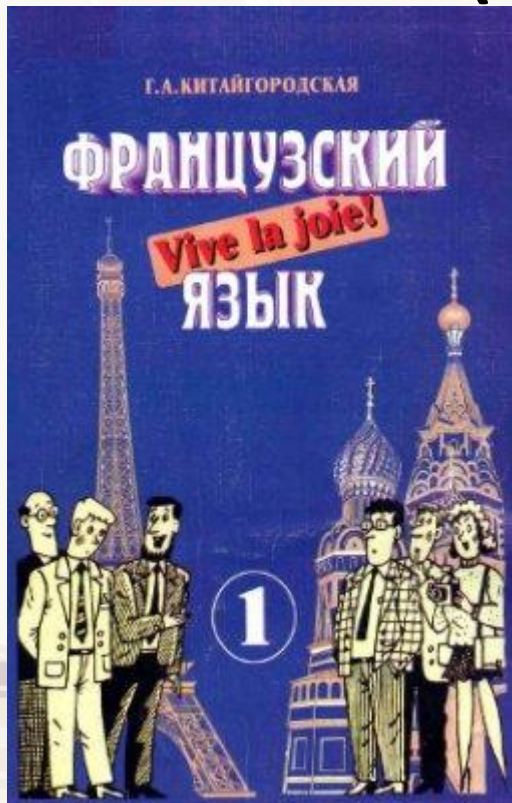

Dialogue 1: Is it cheaper to send the goods by rail or by road?

Dialogue 2: Do they pack the large spare parts in crates or cardboard boxes?

Dialogue 3: Do they send the goods by sea or by road?
