# My own subculture

The project was done by Belimova Olesya

I`d like to present a project about my own subculture.

You know, teens are often influenced by so-called ``bad guys`` and begin to smoke, take drugs and drink.

They reject everything and

rebel against the older generation.

Besides, they want to express their individuality.

I have read a lot about different subcultures, and now I know that each of them has good and bad features.

I want to create a subculture  
that has only good features.  
The name of my subculture is  
“Joy”.

The members of ``Joy`` don't take drugs  
like hippies  
and don't protest against the society  
like punks.

They don't wear the blackest black  
like goths.

They like to show off  
but prefer bright

colours and listen to dance music.

They like to go in for sports

They are active and  
have many hobbies.

Their behaviours don't differ from social norms, they are optimistic and kind. They enjoy life and want all people to be happy. They like to be in a collective and have many friends.

I am against violence and  
the members of my subculture  
are against it too.

I hope that we will be  
the founders of a new subculture "Joy"

In the town where I was born  
Lived a man who sailed the sea  
and he told us of his life  
In the land of submarines.

So we sailed up to the sun  
Till we bound the sea of dream  
And we lived beneath the waves  
In our yellow submarine

We all live in a yellow submarine...
