

*How to improve your
English?*

*Today I will tell you
5 tips that will help
you move from the
"dead point" and in
a short time
improve your
English.*

*Council No 1: Applying
your knowledge in
practice.*

The study of any language consists of two parts: theoretical and practical. If you study theory and do not learn to apply knowledge in practice, you can not use such knowledge in life during a conversation.

Council No2 : Vocabulary expansion

To quickly replenish your vocabulary:

1. Make lists of words on one topic. For example: work, airport, restaurant, animals, etc.

2. Teach only the words that you are going to use.

*Council №3: Improve
understanding of English speech
skills*

This can only be remedied with the help of constant practice. The more you listen, the better you'll understand. Start better with TV shows or podcasts.

*Council №4: Learning
to think in the
language*

For this you need:

- 1) Replace words in English;*
- 2) To bring the use of each grammatical structure to automatism;*
- 3) As often as possible, make proposals in English. Speak everything that you see in English.*

*Council №5:
Surround yourself
with English*

Look for information on the Internet? Do it in English. Do you play games? Change the language from Russian to English. Would you like to read an interesting book? All this can be done in English.

So English will become a part of your life. And with it you can discover a lot of new and interesting.
