Family

My family is not big. **There are four of us:** my father, my mother, my brother and I. My father is a doctor, he treats people. He likes his work very much. Also **he is fond of taking pictures.** My mother is an economist. She likes mathematics. When she has some free time, she cooks very tasty cakes. We always help her all around the house. My brother is a university student. He is learning to be a doctor like our father. He is also a good sportsman, he plays tennis and football. My name is Alex, I am a pupil. I also like sport and reading books. I like when our family gets together. Then we discuss films and books, listen to the music. On weekends we visit our grandparents. In summer we go to the seaside or to the mountains. I love my family very much. It is the best family in the world.
