

- Screens from R-Kiosk Finland app
- Please download this app! There is also a screen capture video on teamwork.
- R-Kiosk Estonia shall be a copy of the Finland app
- R-Kiosk Finland app based on Narvesen Norway and 7-Eleven Norway app, some screens are from these apps, these are illustrative only, only use R-Kiosk colors in the R-Kiosk app!

# Style

## R-Kiosk Estonia wants a different color profile than R-Kiosk Finland

Basically we are going to use:

- 1.Loading page ( white background and blue logo), blue logo attached to email.
- 2.Main navigation pane grey background and white font (font style added to mail attachment)  
R-Kiosk corporative font style is Gilroy. We use 2 weights ExtraBold; Light. Headings should be font Gilroy ExtraBold; All ohter texts can be used as Gilroy Light.
- 1.App icon on phone (white background ja small R logo blue) Small R logo attached to email.
- 2.Logo on top of pages (in the app) grey logo R kiosk

Colour code for grey (main navigation):  
PMS: 425 C / PMS uncoated: 425 U  
#57585A  
RGB: 87 / 88 / 90  
CMYK: 16 / 10 / 10 / 75

## Push notifications

We need support for rich push, primarily deeplinking, images and videos.

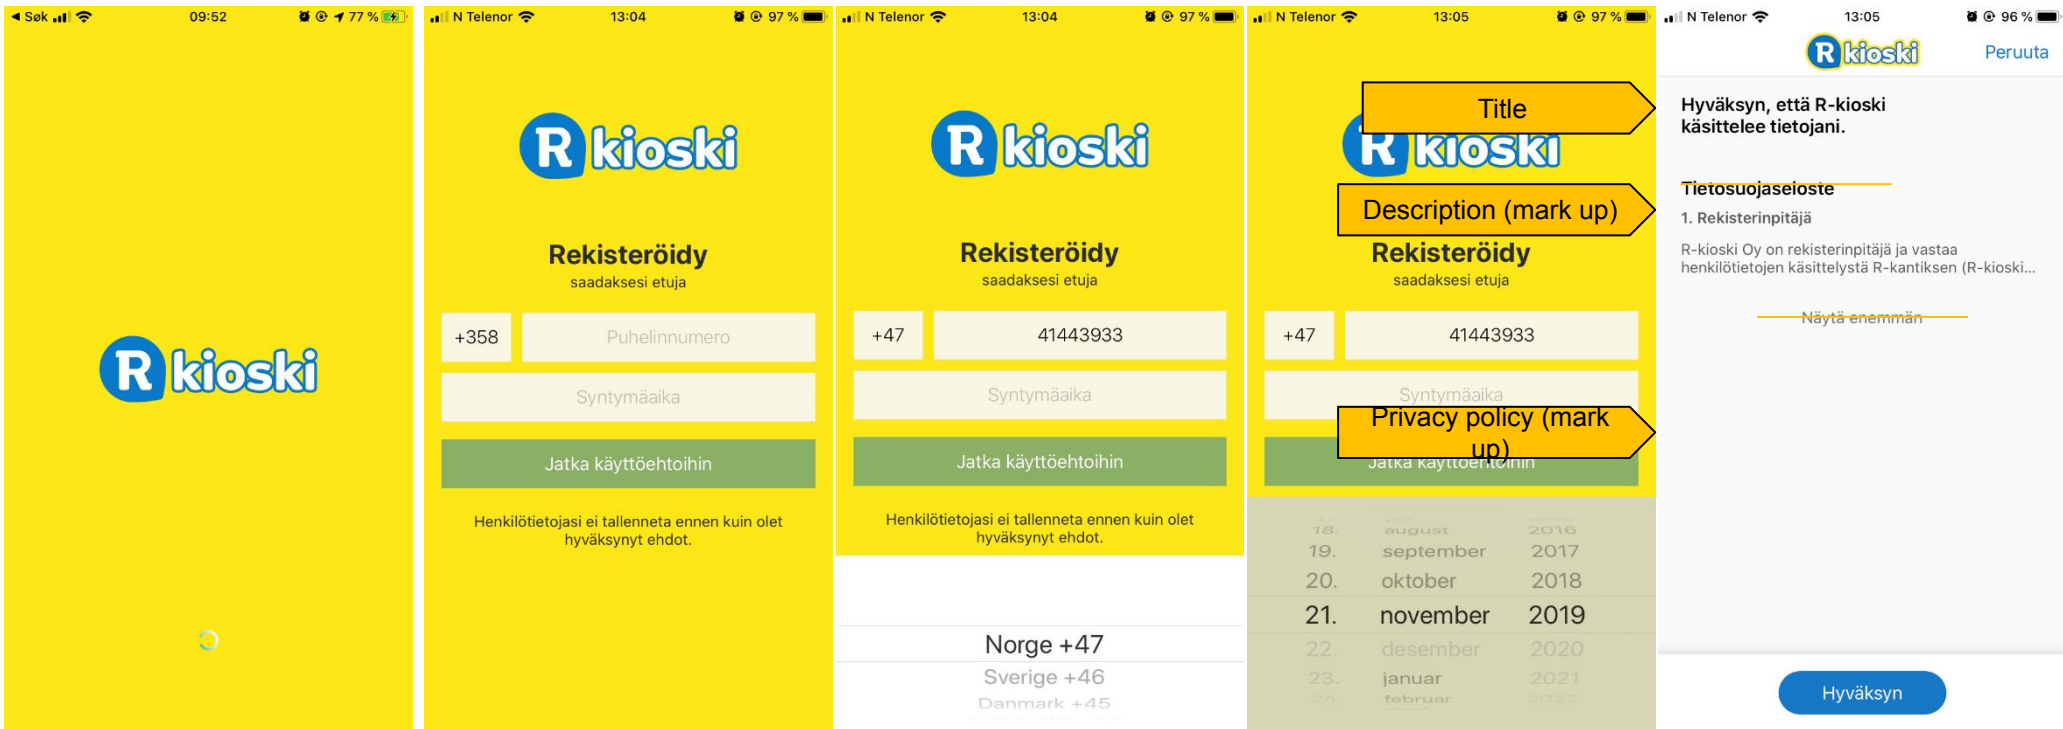

Post /device: <http://kb.liquidbarcodes.com/api/#post-device>

LB to get certificates?

Deeplinkning:

- Where in the app do we want deeplinks?

# Sharing

App should use r-kiosk style, illustrative mock ups only!

Show share icon for 'ShareType' = 'Shareable' or 'ShareAndCare'

This is a one step process. Once user presses Post /share, content will be sent from user's app and sent to friend's app. User must send this url, if content is lost. Improved two step sharing process, where user can enter phone number under development, but is not ready

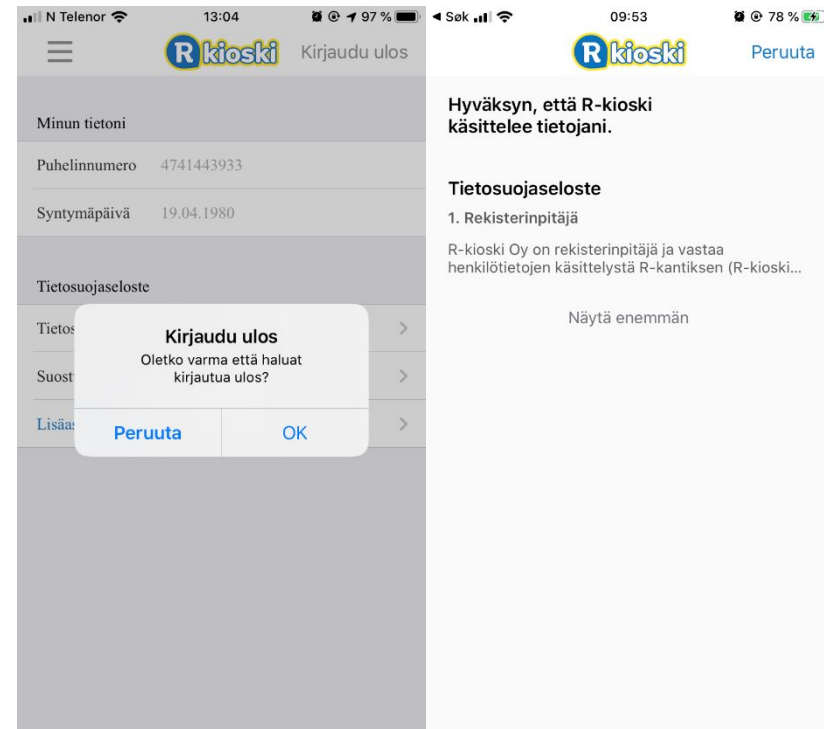

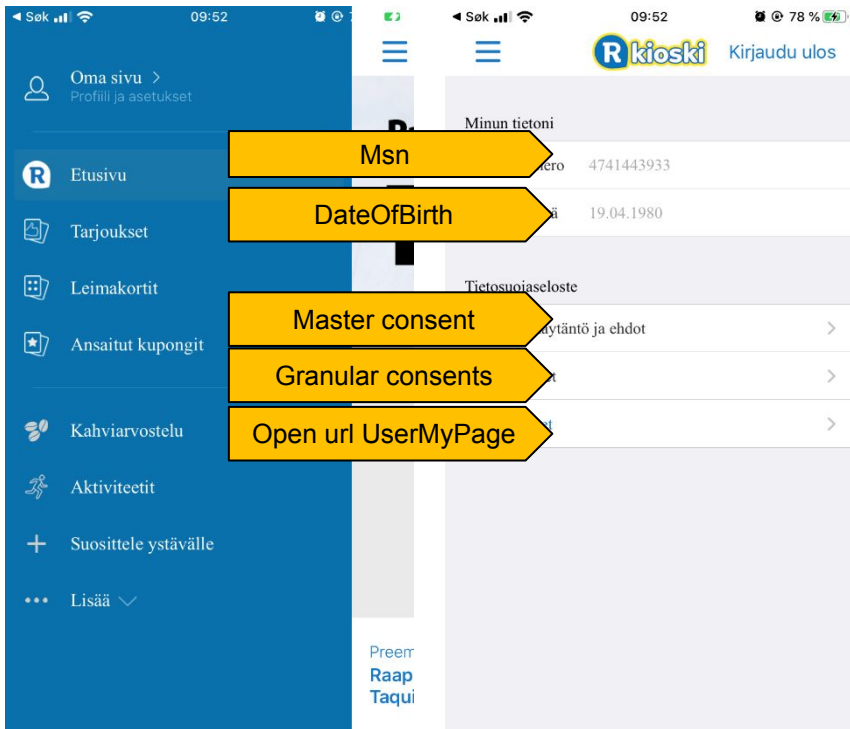

When pressing share icon, show dialogue to enter phone number

When pressing Send:  
POST /share  
Response: SharedByApp  
content has been sent to friend's app, show success message

Response: ShareByUrl  
(user not registred in app, content must be shared via sms) open message handler, prepopulate text with 'Message'

After sharing, close message view and come back to app. Refresh section.

# Open app, content room

The screenshot displays the 'Tarjoukset' (Offers) section of the R kiosk app. The main offer is for 'Paleo-shotti 150', featuring two bottles of 'ginger shot' and 'fireball' against a background of lemons and ginger. The price '150' is prominently displayed in large black font. Below the product image, there is a QR code and the number '70 57 76 19'. The offer is valid until December 31, 2019. The coupon content includes the text: 'Kupongin voi käyttää kerran. Valitse mikä tahansa Paleo-shotti. Paleo-shotti 1,50 € (25 €/l), norm. 2 € (33,33 €/l)'. The app interface also shows a navigation menu, a status bar at the top, and a 'Preeminence Raaputa, voita ja saat Taqitton 0,50e!' promotion on the left side of the offer card.
