ЯЗЫК

GLOBAL WARMING

The slow increase in the temperature of the Earth caused partly by the greenhouse effect increasing the amount of carbon dioxide in the atmosphere.

OIL

A thick dark smooth liquid from under the ground, used for making petrol and other fuels.

CLONING

The process of creating an animal or plant in a laboratory that is an exact copy of another using the original animal's or plant's DNA.

FLOOD

If there is a flood, a large amount of water covers an area which is usually dry, for example when a river flows over its banks or a pipe bursts.

SOLAR POWER

Power obtained by harnessing the energy of the sun's rays

WIND POWER

Energy created from wind that is turned into electricity or used for making a machine work.

GAS

Gas is a substance like air that burns easily. It is used as a fuel for cooking and heating.

GM (genetically modified) food

It contains ingredients made from genetically modified plants or animals. The abbreviation GM is often used.

Match 1-7 and a-c to make definitions

1. Gas
 2. Cloning
 3. Global warming
 4. Oil
- a) the process of creating an animal or plant in a laboratory
 - b) a substance like air that burns easily
 - c) made from genetically modified plants or animals
 - d) created from wind that is turned into electricity

5. Flood

6. GM food

7. Wind
power

e) a large amount of water covers an area which is usually dry

f) the slow increase in the temperature of the Earth

g) A thick dark smooth liquid used for making petrol
