

90's generation

BACK
TO
THE 90S

A graphic design featuring the text "BACK TO THE 90S" in a bold, stylized font. The word "BACK" is the largest and most prominent, with a yellow-to-orange gradient and a blue shadow. The words "TO" and "THE 90S" are smaller and stacked below it. A hand holding a pen is visible on the right side of the "BACK" text, as if writing it.

- ▣ A lot has happened in those years. The first mobile phones were used, everyone wanted a Gameboy, Flippo's were traded at every street corner, Britney Spears annoyed us with 'Hit me baby one more time', and kids only wanted to travel to school on roller skates. There's a big difference between the entertainment our generation grew up with and the kind of entertainment kids grow up with nowadays

- Admit it, childhood children, who were born in the 80s and 90s was unique. Yes, maybe we did not have the capacity and diversity of products, which have modern children, but our childhood was the best, and today we really have something to remember, we veselilis..My - the generation that walked in the yard , paid leaves and had a real friend.

90's is the decade gave us pop culture,memorable tv moments and sports moments and newsmakers during this decade. For example, MTV celebrated 10 years in 1991 on MTV shows.

And if you born in 90's you must know about Fox Kids Chanel, and all cartoons that it shows.

90's rap music began it's high popular music or almost the gangster rap movement began, metal rock is getting surpassed by grunge rock like the bands Nirvana, Pearl Jam, Soundgarden so on.

- Think of the things that were in the 90s: film camera, rings in the water, VCR, paper doll, Kinder

- Now think of the paper ten, which existed till 2009 since 1997 year. Rest in peace, dear ten. We will never forget how you buy on chocolate, ice cream and chewing gum. You are forever in our hearts

- We are the generation who grew up with technology but still know what life was like without all those things. We still know what it was like to play outside and get our hands and knees dirty. We were forced to use our imagination, because we didn't have easy access to phones and computers. Our generation didn't see all the new technologies as 'new', we were part of it, right in the middle of it. We grew up in a world which was fairly simple, and slowly got more complex. Instead of 10 cartoons to watch, there are now over a 100 cartoons on television. Is it better? In some ways it is of course, but we all have our moments when we desire the good old times of our youth.
