How to Extract / UnRAR with 7-Zip

(This version is made for windows Vista)

Most of 7zip's features can be access by selecting the file and using the right click menu which makes this program very simple to use.

Select the file you want to extract from the ZIP/RAR/7z archive.

Folders	· · · · · · · · · · · · · · · · · · ·			

A - Complete extracted file. Open File and Enjoy.

METHOD #2:

Another method to extract/unrar the file is to right click the one of the 7zip/RAR files and select "Open Archive."

- A Right Click file, select Z–zip on menu
- B Select "Open Archive."

This will open up the Zzip File Manager. You will then want to click on the "Extract" button

A - Click the "Extract" Button. It will then bring up another 7-zip window asking you the directory in which you would like to save the file. Choose your location and click "OK"

Сору	×
Copy to:	
C:\Users\your profile name\your chosen directory	•
Folders: 1 (729 608 192 bytes)	A
	в
	OK Cancel

A - Select the directory that you would like to save the file

B - Click "OK"

Once you click "OK," it will bring up a window showing you the unrar/unzip process.
