MY DREAM VACATION

Australia

SURPRISE

I want to go to Paris in the autumn season. Because then, nature with the city is well suited.

In paris there is everything you need for. Especially shopping. Well of course without sweets do not do.

India interests me with the dances and dresses. I especially want to see how the sun shines on the Taj Mahal mausoleum and I want to know in what condition

In Australia, there are many different species of animals. There's a rare kangaroo. I personally want him taken in hand.

The End

Thank you for attention
