PRODUCT

DEVELOPMENT

We focused on a “safe product” and “satisfying skin improvement.”

Before launching, Dr. MIND has communicated with about 1 thousand people who have acne and troubled skin to create a “blind consumer test” program to focus on “satisfying skin improvement.”

1 Recruit People for Consumer Test

Recruit people who want to improve their acne prone skin (testers)

Each Product more than 200 people

Provided free products for people who had problems and wanted to improve their skin

2 Real Reviews and evaluation

Received real reviews, opinions and evaluations of products for at least 3 weeks.

Each product in each set for more than 3 weeks

We acquired their opinion through satisfaction survey as well as skin pictures after use of each product.

3 Analyze and Improve

Improved the products through the evaluation process and analyzed skin and age types.

Communicate with manufacturers and improved

Analyzed the reviews of the pre-users and improved the satisfaction of all the products.

afraid of trying foundations, definitely give this a try!
The cushion comes in 2 shades (light beige and natural beige) I used the natural one and it was a little light for me but if you are on the paler side this would definitely work well for you!

FAQ

- ▶ It has alcohol scent and the ingredient list claims it contains ethanol. Isn't it bad for skin?
: Contains Ethanol (Fermented Grains – liquor)

It is an Anti-bacterial substance that frequently used in Liquor, foods and medicines, it is fermented from grains and fruits by using yeast

Synthesized ethanol is extracted from oil(petroleum) and produced after composition but Fermented alcohol is made from fermented grains. It has sterilization effect and avoids harmful, external environment. Also balances the skin condition

- ▶ I am allergic to Propolis & Honey (itchy, allergic reaction). Can I use the Dressing Mist?
: Contains Bee Venom

Bee Venom is a poisonous liquid the produced from ovipositor, and it has Melartin, which has clinical report of Anti-bacterial, Anti-inflammatory function.(Tested from Rural Development Administration)

Bee Venom has Anti-bacterial and Anti-inflammatory function and it works great on Atopic and Acne prone skin. However it may cause itchiness and allergic reaction on people who are allergic to Honey
