

МБДОУ «Детский сад №43» г.Сыктывкара

■ Знатоки природы

Подготовили воспитатели
Филатова А.В., Калашникова М.М.

**Лес, поля, моря и горы-
Это Родины просторы.**

Там, где ветер разыгрался,
Или дождь разбушевался,

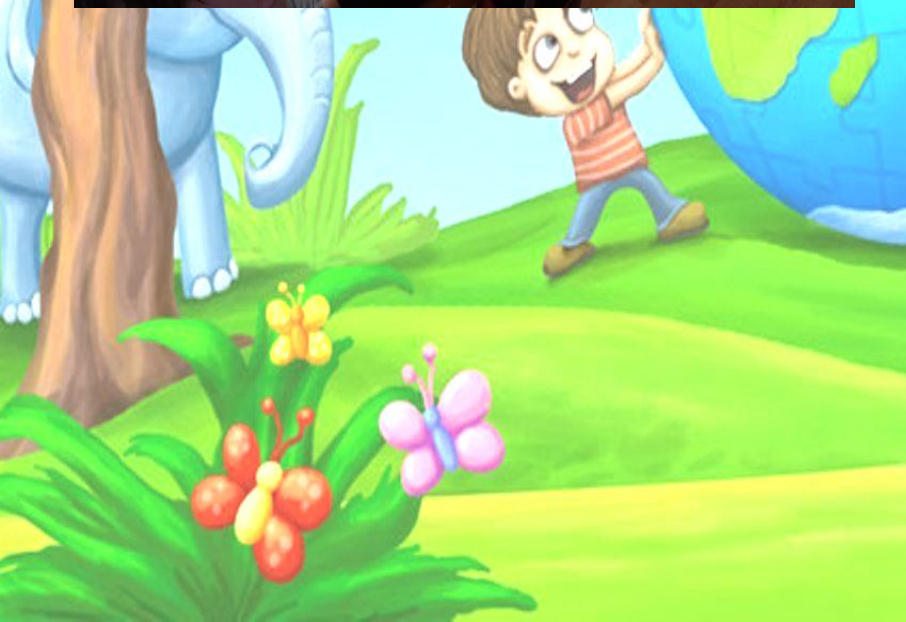

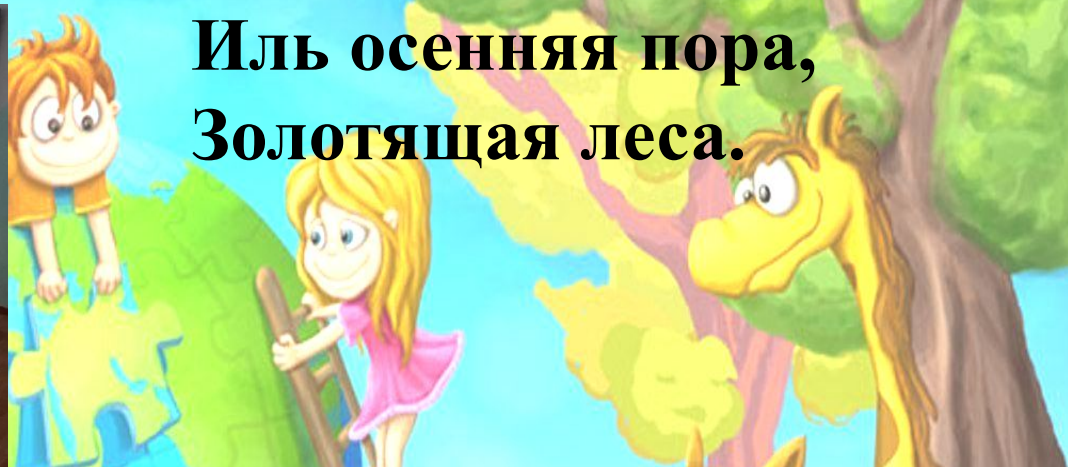

Где болото с комарами,
Или грязь под
сапогами.

**Там, где снег валит
стеною,
Укрывает сединою.**

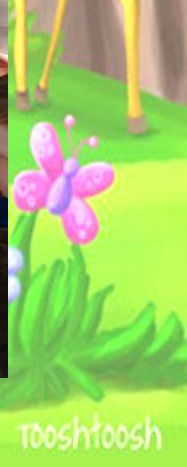

**Иль осенняя пора,
Золотящая леса.**

**Все для нас с тобой
родное,
Все чудесное, живое.**

A vibrant, cartoon-style illustration of a lush green forest. In the center, a large, stylized globe of the Earth is being played with by four children. One boy with orange hair sits on top of the globe, holding a blue puzzle piece. A girl with blonde hair in a pink dress climbs a wooden ladder leaning against the globe. Another boy in a striped shirt pushes the globe from the left, while a girl in a yellow shirt with a heart on it pushes it from the right. To the left, a blue elephant peeks out from behind a tree. A blue bird with a yellow beak sits on a branch above. A yellow giraffe and a small yellow deer stand on the right. In the bottom right, a small yellow rabbit sits near some flowers. The background is filled with green trees and a clear blue sky with a few butterflies. The overall scene is cheerful and represents environmental care.
