

MY HOUSE

THE BATHROOM

WHAT IS THERE IN OUR BATHROOM

- **There is a bath and shower**
- My Mother likes to fill the bath tub with lots of hot water, so she can take a long relaxing bath
- She turns on both of the taps, hot and cold to make sure she gets the water to the right temperature
- When my Mum gives us children a bath she puts bubble bath in the water, as we love to play with the bubbles

Afterwards we pull the plug out to let the water drain away

My Dad prefers a quick refreshing shower, especially in the summer

The water comes from the shower head which helps rinse the shampoo from your hair, however remember to close the shower door or curtain to stop the water spraying everywhere

- We use shower gel to clean our body and shampoo and conditioner for our hair
- After a bath or shower we always use a towel to dry ourselves

WHAT IS THERE IN OUR BATHROOM

toilet and wash hand basin

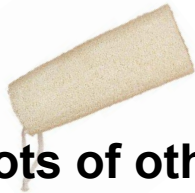

- When we have finished using the toilet we flush the water away
- We have toilet paper hanging on the wall beside the toilet
- Daddy always puts the toilet seat up but Mummy likes it down
- We have a toilet brush which helps clean the toilet
- The cistern is where the water is stored until you need to flush
- We wash our hands and face in the basin in our bathroom
- We also brush our teeth with our toothbrush at the wash hand basin
- We have a special glass so we can rinse our mouth with water afterwards
- Our wash hand basin has a mixer tap to help us control the temperature of the water
- Mum likes liquid soap that smells of coconuts to wash her hands
- Dad likes menthol mouth wash when he cleans his teeth

WHAT IS THERE IN OUR BATHROOM

- We have lots of other things as well in our bathroom
- We have a mirror which helps me and my mum put on our make up
- Looking in the mirror also helps my Dad shave his face with his razor
- I don't like to weigh myself on the bathroom scales
- I love to use our shower brush, which helps me wash my back
- We have a frosted glass window, so that our neighbours can't see in
- The lufa is great for getting rid of the dirt on our skin
- My little brother loves playing with his rubber duck when he takes/has a bath
- I dry myself with a bath towel after a bath or shower, however when I only have a wash I dry my hands and face on our hand towel, which is hanging on the rail
- The wall and floor of our bathroom is tiled, in our small bathroom the tiles are grey and in our large bathroom the tiles are green
- My Mum cleans the bathroom with bleach and anti lime scale products
- My Father never cleans the bathroom!!!!!!!

WHAT IS THERE IN OUR BATHROOM

We have a bathroom cabinet in our bathroom

I keep my hair brushes and combs here

My Mum likes keeping her makeup bag here, which contains, makeup, mascara, eyeliner and lipstick

- My Daddy likes to keep his shaving foam, aftershave and razor here, although sometimes he uses an electric razor
- When I was small my Mum used to keep my baby wipes here as well
- Our toilet bags that we keep in the cabinet are very usefull when we go on holiday
- Not forgetting our sun tan cream, so we don't burn if we are going somewhere hot
- My Mother and I like to paint our nails, we keep our nail polish in our bathroom cabinet, we have lots of different colours
- My Father likes to use AXE deodorant, I think it smells very nice
- My Mummy does not keep her perfume here, she prefers to keep it in her bedroom
- I like to use mousse, gel and hair spray to make my hair look nice when I go to school. We keep all these beauty products in our bathroom cabinet

Razor

Shaving Cream
