People live a busy life nowadays. They don't have much free time for leisure activities, for visiting cinemas or theatres.

However, it is always a good idea to see a new film or play. Such pastime carries us away from daily routine and gives food for thought.

As for me, I like visiting theatres. In the town, where I live, there is only one theatre. It usually features new and old plays. Sometimes opera singers or ballet dancers from larger cities visit our theatre. I try not to miss such events. Theatre for me is both pleasant and entertaining.

Being one of the oldest forms of art, it features comedies, dramas and tragedies. Most of all I like comedies.

I can confidently recommend to visit it to all others.
And certainly I can say that theater cannot be
compared with any competition with anything else,
it's a very different kind of fun

Thank you for your attention !
