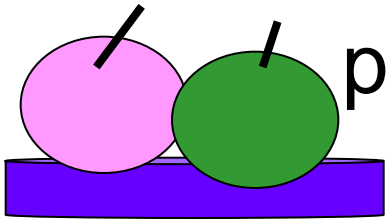
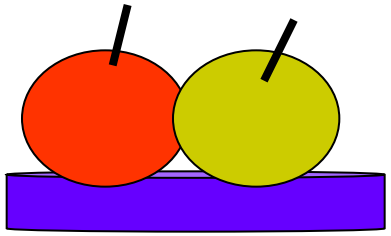
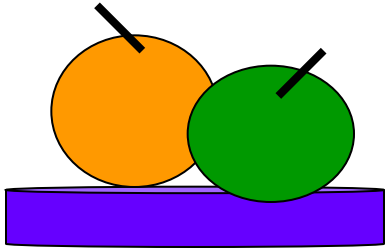
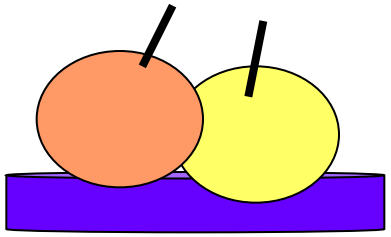
Придумай задачу по рисунку и реши её.









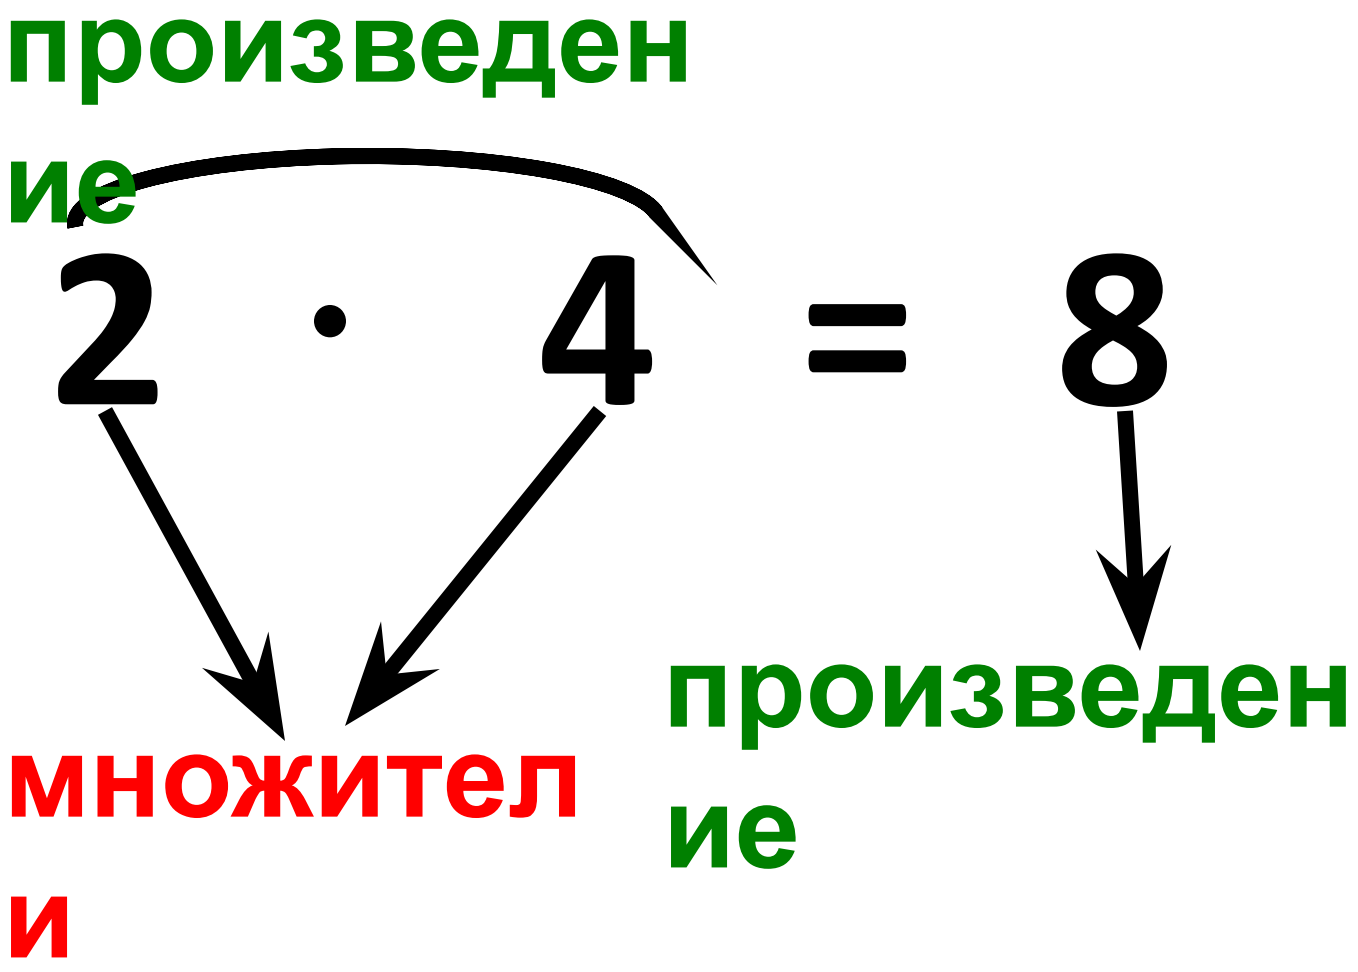
2 + 2 + 2 + 2 = 8

(ябл.)

2 • 4 = 8 (ябл.)

Умножение – это сложение одинаковых слагаемых.

$$2 + 2 + 2 + 2 = 2 \cdot 2$$

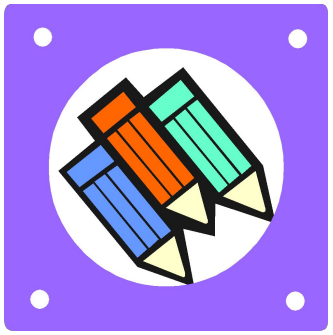


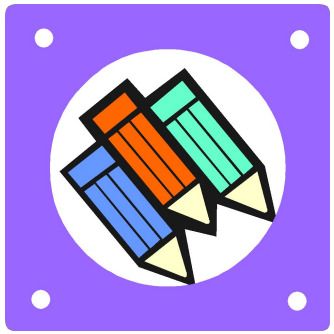
произведение
2 · 4 = 8
множители
произведение

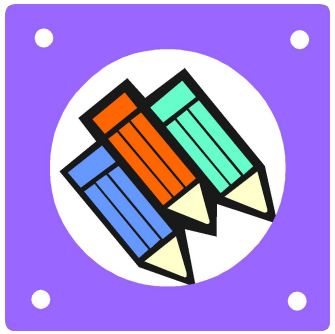
$3 \cdot 2$

Первый множитель показывает, какие одинаковые числа складывали.

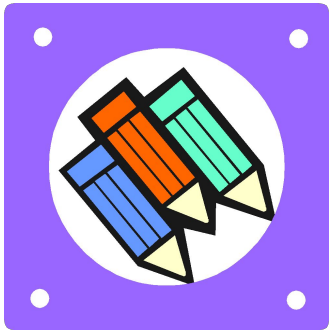
Второй множитель показывает, сколько в сумме одинаковых слагаемых.

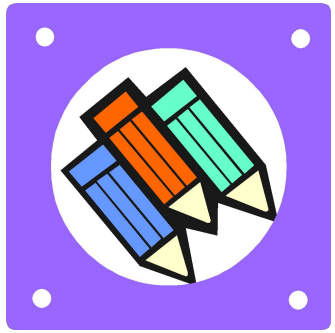




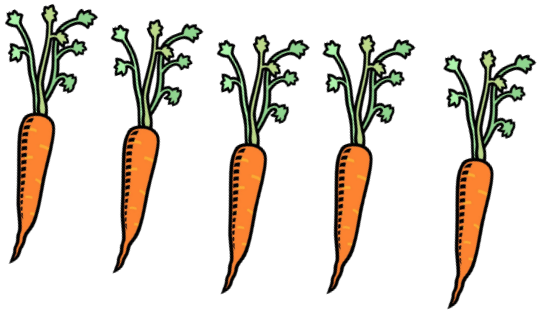


$$3 + 3 + 3 + 3 + 3 = 3 * 5 = 15$$





$$5 + 5 = 5 * 2 = 10$$



$$4 + 4 + 4 + 4 + 4 + 4 = 4 * 6 = 24$$

$$12 + 12 + 12 = 12 * 3 = 36$$

$$15 + 15 = 15 * 2 = 30$$

$$32 + 32 + 32 + 32 = 32 * 4 = 128$$

$$43 + 41 + 43 + 42 =$$

$$0 + 0 + 0 + 0 + 0 + 0 = 0 * 6 = 0$$
