

Task 1.

Lena lives on the fourth floor. When she comes in, it takes her half a minute to get from one floor to the next. How long does it take her to climb the stairs to her flat?

Task 2.

Some guests were invited to a house – warming .They arrived in three cars, four people in each. How many guests came to the house – warming?

Task 3.

Oleg woke up at eight o'clock." Haven't I overslept, Mummy?" he asked. "Is it time for us to leave for the puppet show?" "It's still early," Mummy said. "The puppet-show starts in three hours' time." "When are we leaving?" "We'll leave the house an hour before the show begins." When does the show begin? When will Oleg and Mummy leave home?

$$6+9=$$

Six plus nine is fifteen

$$8+5=$$

Eight plus five is thirteen

$$12+7=$$

Twelve plus seven is nineteen

$$2 \times 5 =$$

Two multiply by five is ten

$$4 \times 8 =$$

Two multiply by five is ten

$$9 \times 3 =$$

Nine multiply by three

$$20-7=$$

Twenty minus seven is thirteen

$$11-8=$$

Eleven minus eight is three

$$16-5=$$

Sixteen minus is eleven

$$18:2=$$

Eighteen divide two is six

$$15:3=$$

Fifteen divide three is five

$$14:7=$$

Fourteen divide seven
