$$1 + 1 = 2$$

A visual equation illustrating the concept of addition. On the left, a blue circle is followed by a black plus sign, then a purple circle. This is followed by a black equals sign. On the right side of the equals sign, there are two red circles placed side-by-side.

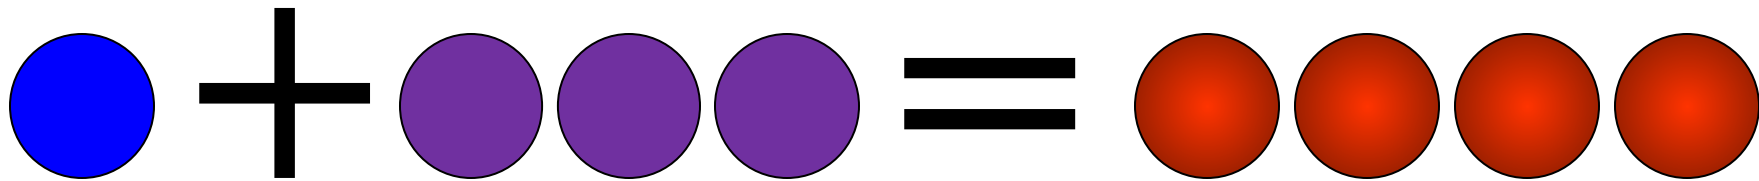

$$1 + 2 = 3$$

$$2 + 1 = 3$$

$$1 + 3 = 4$$

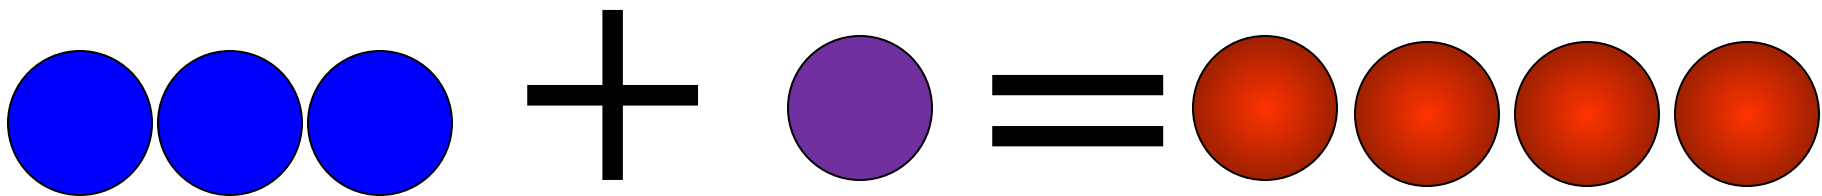

A visual equation illustrating the sum 1 + 3 = 4. On the left, there is one blue circle followed by a black plus sign, then three purple circles. This is followed by a black equals sign, and then four red circles on the right.

$$2 + 2 = 4$$

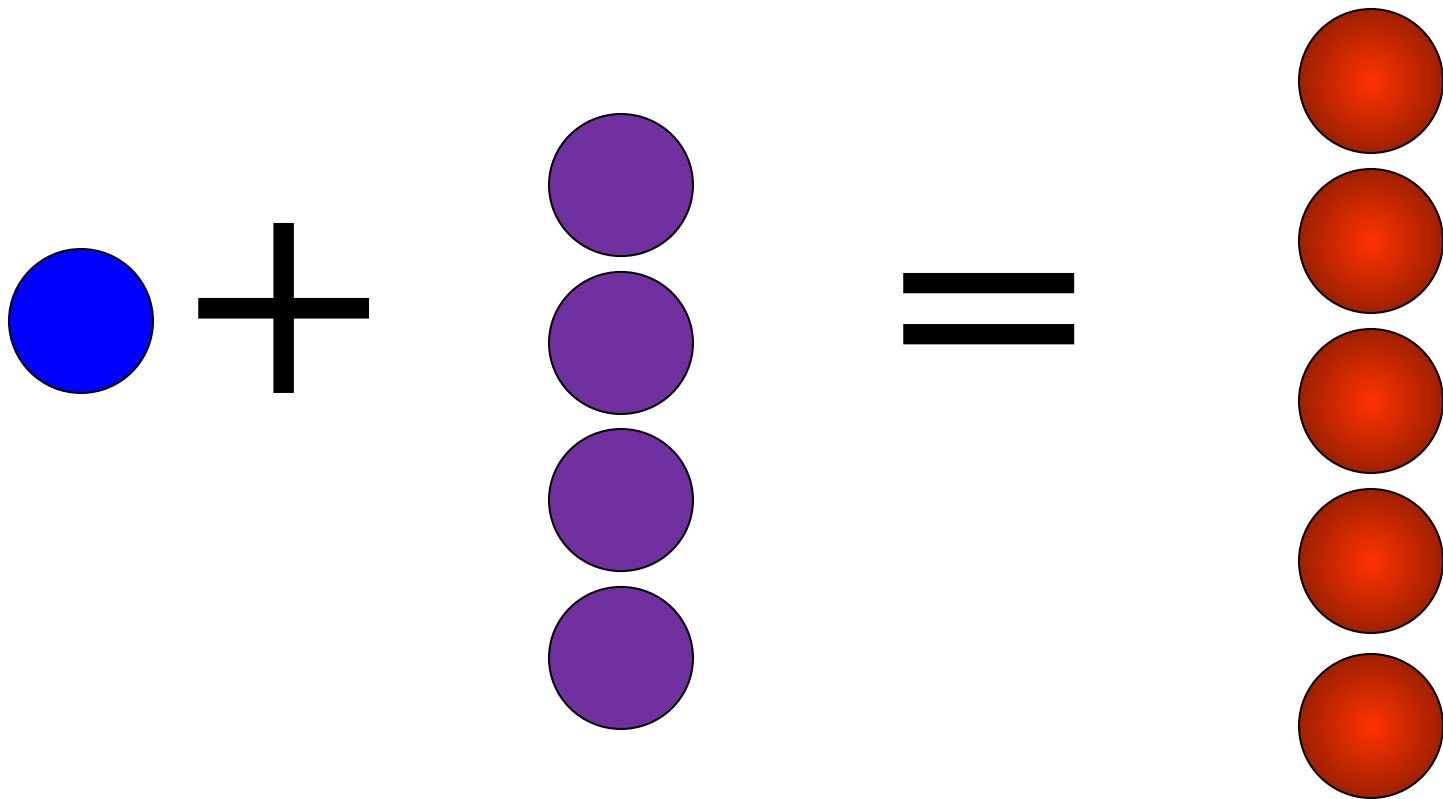

$$3 + 1 = 4$$

A visual representation of the equation $3 + 1 = 4$ using colored circles. On the left, there are three blue circles. To their right is a black plus sign. Further right is a single purple circle. To its right is a black equals sign. On the far right, there are four red circles.

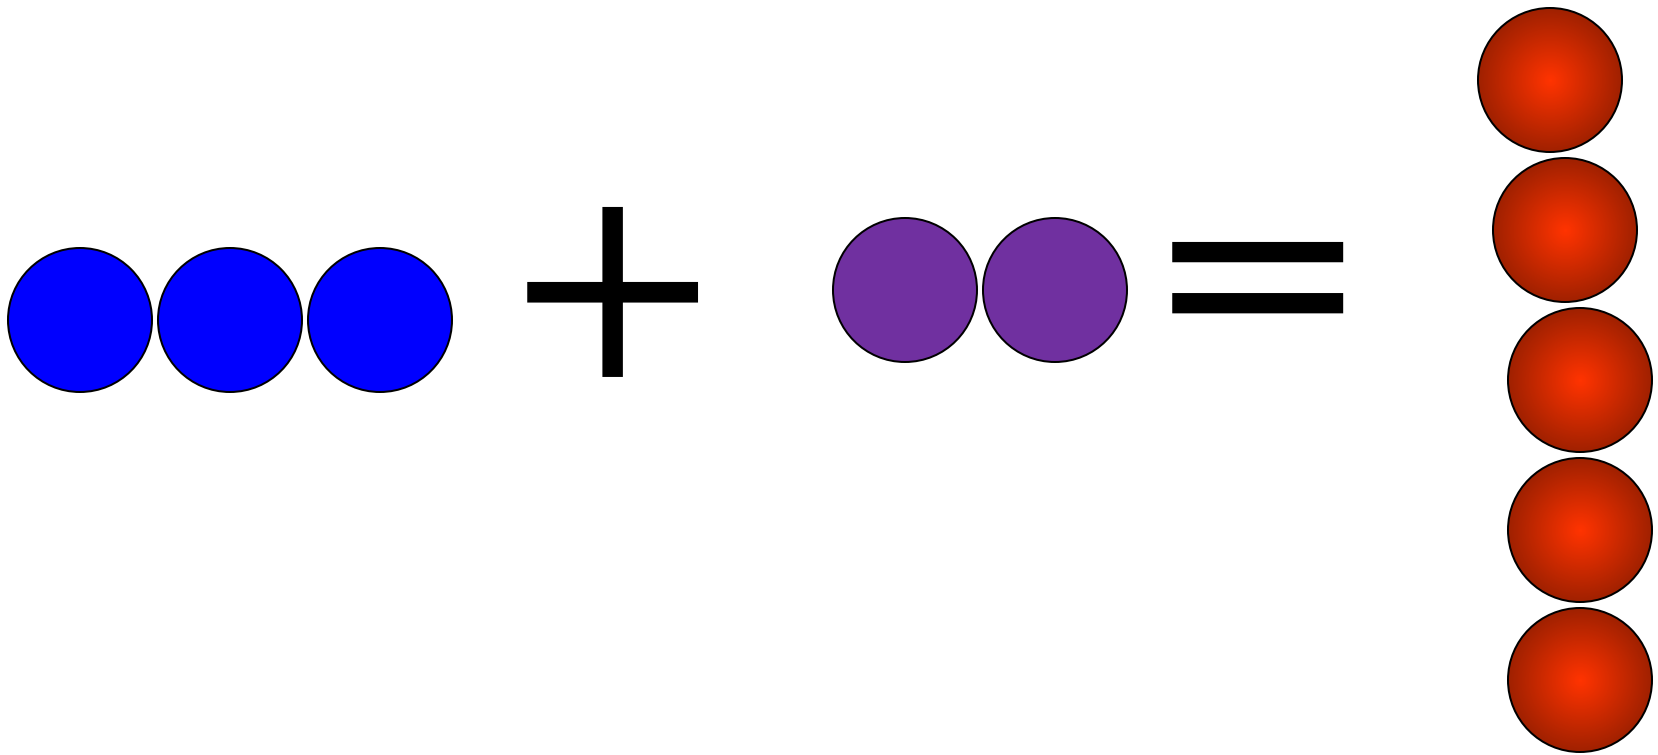

$$1 + 4 = 5$$

$$2 + 3 = 5$$

$$3 + 2 = 5$$
