

A vibrant space-themed illustration. In the foreground, a white rocket with a blue window and orange flames is launching from a small Earth globe. The background features a large grey moon with craters, a blue Saturn with rings, and several other planets in shades of blue and green. The sky is filled with white stars and a soft blue glow.

"Космическое путешествие"

Цель занятия:

Воспитывать интерес к занятию. Продолжать знакомить с числами в пределах десяти; закреплять прямой и обратный счёт; умение ориентироваться в пространстве: справа - слева; закреплять знания о геометрических фигур; развивать мышление в решении логических задач.
