

My native town

Автор:
Учитель английского языка
МОУ «Коношская средняя
общеобразовательная школа»
Григорьева С.В.

Konosha was founded in 1898. The 22 of October is the birthday of the town. The horse is the symbol of the town.

Konosha is not very large, but it is beautiful. There are a lot to see.

There is a beautiful park in the centre of the town. In summer people like to relax there.

There are a lot of different monuments in Konosha. They make the town attractive.

The main street of the town is not very long, but it has old and new buildings: a lot of shops, a hospital, a postoffice, a museum.

This is the
biggest school
in our town.

919
schoolchildren
go to school
every day. 64
teachers work
there.

Young people have a lot of opportunities to do in for sport because there is a sportschool and a stadium in the town.

There are some nice places where people like to spend their free time.

In summer it is
smell of fresh
green grass and
flowers. In
winter it is
smell of frost
and snow. It's
great.

People like their native town. New houses are built every year. Our town'll be larger and nicer.

People want
their town
always to be
beautiful and
clean.
