

The background is a solid blue color with several decorative geometric shapes scattered across it. These include a light green parallelogram in the top left, a yellow trapezoid below it, a light blue rectangle in the center, a light blue square at the bottom left, a blue triangle at the bottom left, a light gray pentagon at the bottom center, and a light yellow hexagon in the upper middle. The title 'Геометрия' is written in a large, bold, light blue font on the right side, and the subtitle 'Занимательная геометрия' is written in a smaller, white font below it.
