

A vibrant space-themed illustration on a dark blue background. On the left, a purple and blue rocket with a red flame trails upwards. In the upper left, a red planet with white spots is visible. On the right, an astronaut in a purple suit floats, tethered to a red line that curves across the scene. In the lower right, a ringed planet is shown. The background is filled with white four-pointed stars.

# SPACE COLONIZATION

«Colonizing space is a one-way ticket»

# SPACE COLONIZATION

is the hypothetical permanent habitation and exploitation of natural resources from outside planet Earth.

# ARGUMENTS FOR SPACE COLONIZATION

1. Survival of human civilization and the biosphere in the event of a planetary-scale disaster;
  2. The availability of additional resources in space that could be enable expansion of human society.
- 

# ARGUMENTS AGAINST SPACE COLONIZATION

1. The commodification of the cosmos may be likely to enhance the interests of the major economic and military institutions and to exacerbate pre-existing detrimental processes;
  2. The process of creating colonies is very expensive, require a lot of effort and investment.

**WHO ENGAGE IN  
THE ISSUE OF SPACE  
COLONIZATION?**

# MARS ONE

## 01

CARRYING LIFE  
SUPPORT UNITS

that generate energy,  
water and breathable air  
for the settlement

## 02

CARRYING  
SUPPLY UNIT

with food, solar panels,  
spare parts and other  
components

## 03

CARRYING  
HUMANS

to the surface of Mars

## 04

CARRYING  
ROVERS

to the surface of Mars

**THANK YOU  
FOR YOUR  
ATTENTION!**
