Проблемы используемого ПО

- Неоправданно высокая стоимость единичной лицензии (4000 € / год)
- Ориентация на функционал вместо удобства использования
- Устаревший интерфейс с примитивными средствами кастомизации
- Потребность в квалифицированном персонале для обслуживания
- Закрытая экосистема взаимодействия с сервером

Взаимодействие «клиент-сервер»
