Birthday Parties Traditions

- * Birthday parties started hundreds of years ago in Europe
- * People believed that both good and evil fairies gathered around the person having a birthday
- * To keep harm away, people would bring the person birthday greetings, gifts and food
- * And they would spend time celebrating
- * Birthday cakes and lighted candles began in Germany. People believed that if a birthday child made a wish and blew out all the candles in one puff, the wish would come true

Is your birthday coming soon? Great! It's time to celebrate!

- * Birthday parties can be great fun, especially if you plan them well
