# Which sea animal is it?

This sea animal is very dangerous.  
It can kill other sea animals and  
people with its sharp teeth.  
It's got a huge, long body and rough skin.  
Half of its body is white and half is black.

This sea animal is very friendly and  
it loves to swim in front of fast boats.  
It's got a long, thin body and smooth skin.  
It's got over one hundred teeth.

This sea animal has got very long whiskers.  
They're forty times thicker than our hair.  
It's got a round head and a fat body.
