PROBLEMS***

*act*

*think*

*locally*

*globally*

*Think globally, act locally!*

PROBLEM	CAUSE	CONSEQUENCE	SOLUTION
<ul style="list-style-type: none"> <li>-air/polluted</li> <li>-forests/wiped out</li> <li>-water level/risen</li> <li>-lakes and rivers/contaminated</li> <li>-seas and oceans/contaminated</li> <li>-the ozone layer/destroyed</li> <li>-the land/polluted</li> </ul>	<ul style="list-style-type: none"> <li>-rubbish</li> <li>-greenhouse gases</li> <li>-deforestation</li> <li>-global warming</li> <li>-industrial waste</li> <li>-oil spills</li> <li>-exhaust fumes</li> </ul>	<ul style="list-style-type: none"> <li>-there are less fish</li> <li>-toxic chemicals get into subsoil waters</li> <li>-the sun is becoming dangerous and people develop skin problems</li> <li>-earth's coastline is being reduced and there is less space for living</li> <li>-people develop breathing problems</li> <li>-animal habitat is being reduced</li> <li>-there is less fresh water</li> </ul>	<ul style="list-style-type: none"> <li>-plant more trees</li> <li>-use unleaded petrol</li> <li>-recycle cans, bottles and paper</li> <li>-turn off lights, TV sets, computers and other gadgets when they are not being used because they produce harmful gases</li> <li>-stop using products made in factories which damage the environment</li> <li>-fine ships or factories which damage the environment</li> <li>-stop cutting down trees</li> </ul>

*Seas and oceans are being contaminated because of oil spills. As a result, there are less fish. The government should fine ships or factories which damage the environment.*
