

Life line

*We want to help families, children,
the elderly, people from a poor
country in Africa.*

Our help may consist of several ideas.

1. Collecting funds. We can offer people to organize charity events. All funds raised will go to help the people of Africa. Not everyone has the opportunity to help financially, so we have another solution to this problem!

2. We can organize the collection of clothing. We think that everyone has unnecessary clothes or those that are small, those that we no longer wear.

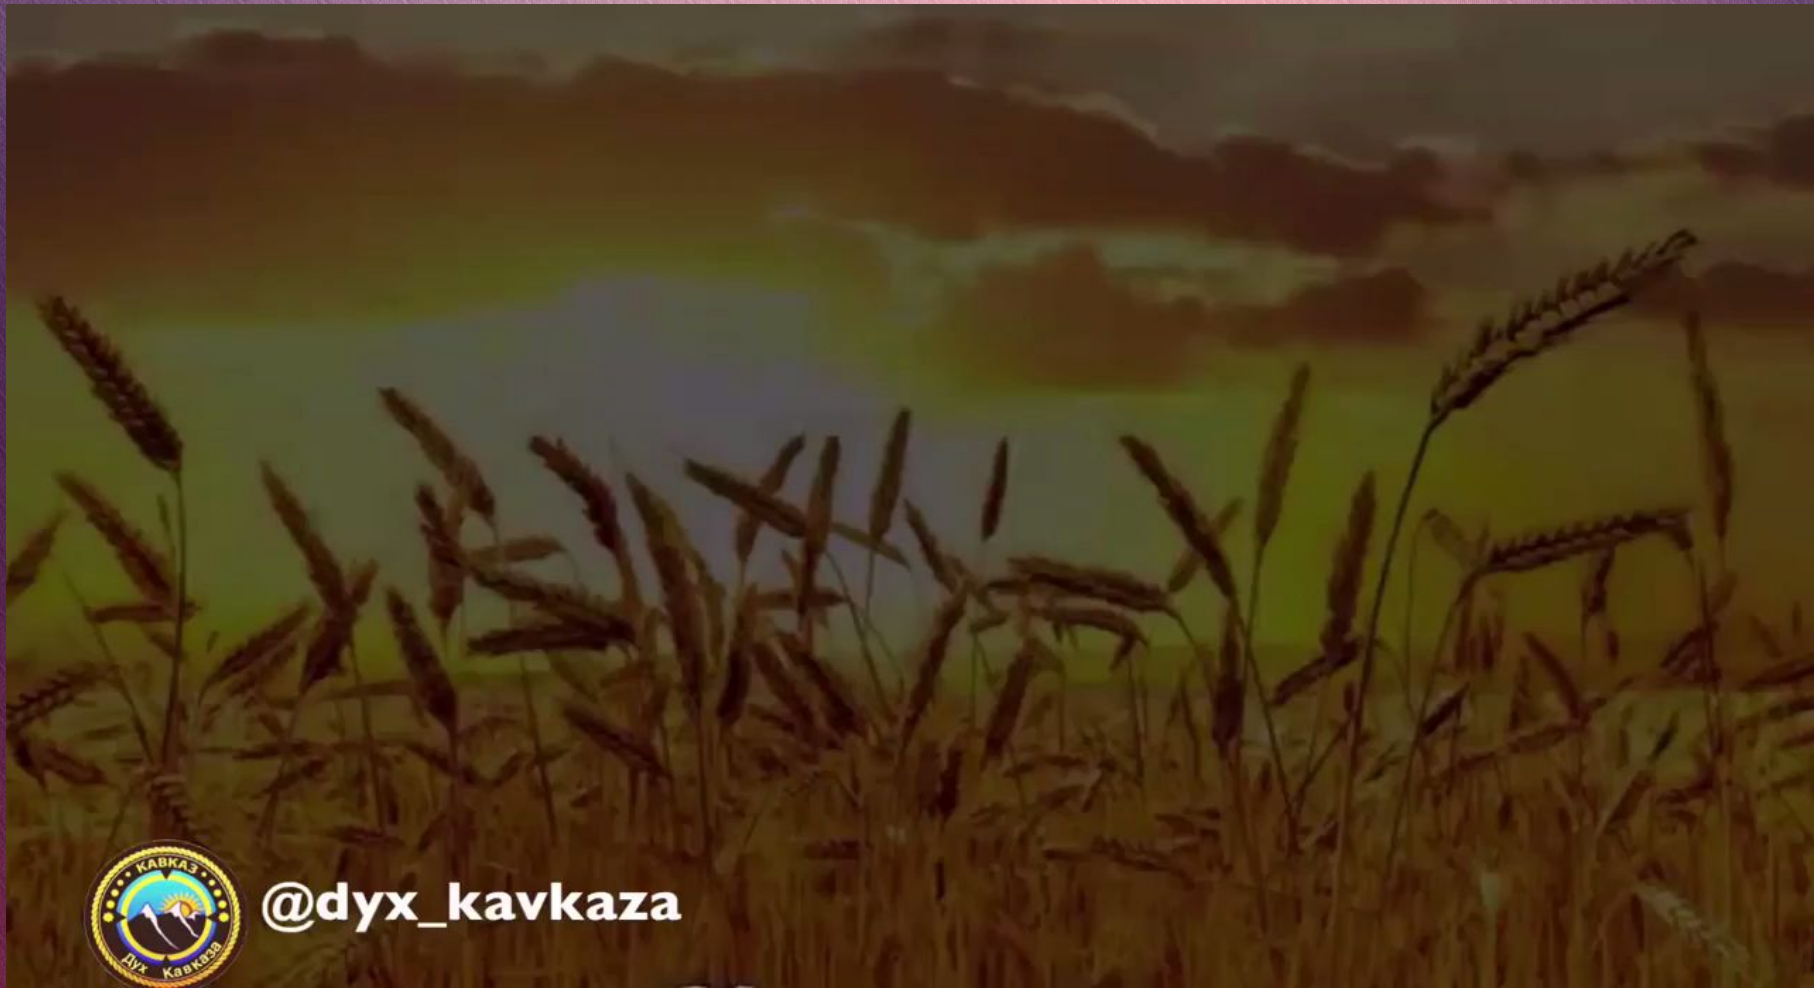

3. Collection of toys and educational coloring books for young children. Some of us have already grown up from the age when we played with toys, some of them just lie there. Some of us have coloring pages that we have never used. So we also want to offer you this very interesting and useful idea!

Our ideas can be shared with the whole school, we believe that everyone will participate, even the smallest! We think that there will be no more equal-minded people and everyone will like our ideas.
