

“Treasure Hunting”

Start

We are going in search of pirate treasures. Our ship is sailing on an endless sea and suddenly.... LOOK! There's something down there! An old bottle, what's inside?...

Hello, strangers!

I'm Captain John Smith. I am writing this message on July 12, 1647, on a desert island, where my pirate assistants and I hid treasures that we had been collecting all our lives. We put them in a chest with a combination lock. If you want to find our treasure, then you will have to prove that you are worthy of it by completing our tasks! With each solved task, you will receive pieces of the map and coins with a part of the code from the lock on the chest. Don't forget to write down the digits of the code! Having gone the hard way in search of all the pieces of the map, you are strangers, you will find our treasure.

John Smith.

Find the extra word in each line. What color will you get if you mix the colors of unnecessary words?

Нажмите!

1. **mouth**, **foot**, **eye**, **nose**
2. **arm**, **ear**, **leg**, **head**

Find the extra word in each line. What color will you get if you mix the colors of unnecessary words?

green

orange

purple

brown

1. mouth, foot, eye, nose

2. arm, ear, leg, head

Spell out the word. What word came out?

Нажмите!

1. Последняя буква слова «**шляпа**»
2. Вторая буква слова «**брюки**»
3. Вторая буква слова «**куртка**»
4. Третья буква слова «**юбка**»
5. Первая буква слова «**нос**»
6. Третья буква слова «**платье**»
7. Четвертая буква слова «**рубашка**»
8. Первая буква слова «**туфли**»

Spell out the word. What word came out?

raincoat

trainers

trousers

sweaters

1. Последняя буква слова «**шляпа**»
2. Вторая буква слова «**брюки**»
3. Вторая буква слова «**куртка**»
4. Третья буква слова «**юбка**»
5. Первая буква слова «**нос**»
6. Третья буква слова «**платье**»
7. Четвертая буква слова «**рубашка**»
8. Первая буква слова «**туфли**»

Solve the examples and you will find out how old each pirate is. Who is the oldest?

Нажмите!

Twenty-one plus eleven is...

Nineteen plus twelve is...

Fifty minus sixteen is...

Eighty minus forty-seven is...

Solve the examples and you will find out how old each pirate is. Who is the oldest?

1

Twenty-one plus eleven is...

2

Nineteen plus twelve is...

3

Fifty minus sixteen is...

4

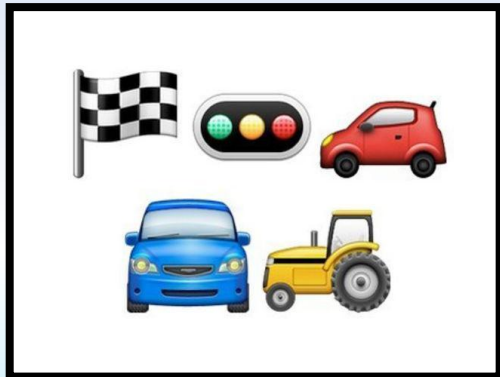

Eighty minus forty-seven is...
