Social network

A social network is a website that allows people with similar interests to come together and share information, photos and videos. People engaged in social networking may be doing so as a personal or a business endeavor. Those who engage on social network sites as a personal endeavor interact by using various forms of media to discuss their lives and interests. The most popular social networks for this type of familiar interaction include Facebook, Google and Twitter.

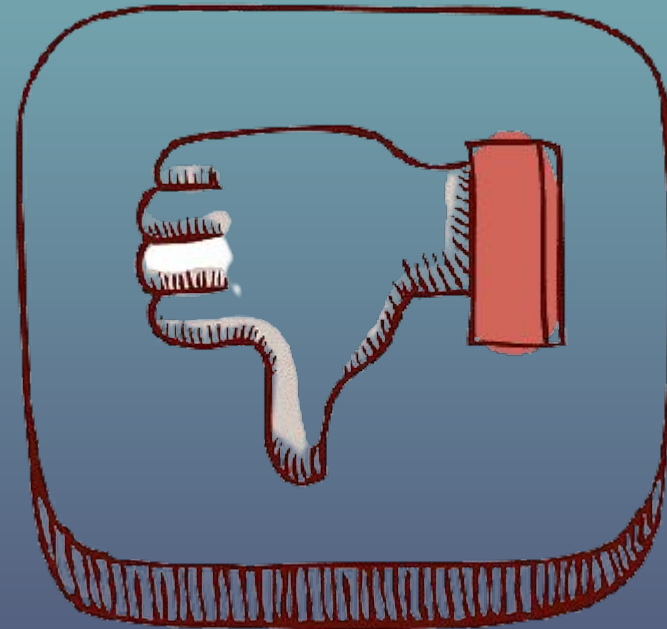

Advantages of social networks

- Quick and Simple Communication Methods
- Global Connections Are Made Possible Through Social Networking
- Social Networking Helps Businesses Advertise Their Brands
- Free to use

Disadvantages of social network

- ❑ Cyberbullying and peer pressure are significant issues.
- ❑ Social networking can become a severe distraction for some people.
- ❑ It can disrupt your sleep cycle.
- ❑ Social networking can spread false or unreliable information quickly.
